FOUR KILLED.

A Train on the Monon Route, Near Indianapolis, Ditched and Four Passengers Killed.

INDIANAPOLIS, Jan. 27.—A train on the Monon route was ditched eleven miles north of this city this morning. Four passengers were burned to death and many injured.

LATER.

The train wrecked on the Louisville, New Albany and Chicago road, was the morning express from Chicago due here at 8:30. It bore Abe Ingalls, conductor, and many passengers. Mr. Ingalls was badly, though not fatally hurt. He is with friends near the scene of the wreck and is able to sit up. The tender of the engine jumped the track as the train crossed a long trestle over Wilkinson creek. The engine and baggage car passed over safely. The day coach and sleeper went into the ditch and were burned.

The killed are: Mrs. Eubands, of Broad Ripple, burned; two children of D. S. Oldham, of Sheridan, burned; unknown man, who died soon after being rescued; Mrs. Lizzie Fitzpatrick, of Indianapolis, missing and supposed to be dead.

Injured: Abe Ingalls, conductor; Engineer Schope, serious; Julius Pearson, of Sheridan, seriously; A. L. Clark, of Westfield, hurt in forehead; ex-President Munger, badly hurt.

SEVENTEEN KILLED.

2 P. M.—A private dispatch from Mt. Carmel states that it believed seventeen lives were lost in the wreck on the Monon there this morning.

LUCKY MEN.

The President Hands Out Some Nice Official Plums.

WASHINGTON, Jan. 27.—The President to-day sent to the senate the following nominations: Samuel Bailey, Jr., of Ohio, to be assistant treasurer of the United States at Cincinnati; John E. Haggert, of North Dakota, to be United States marshal for the district of North Dakota; Elijah Coleman, of Wisconsin, to be United States attorney for the eastern district of Wisconsin; Benjamin F. Fowler, of Wyoming, to be United States attorney for the territory of Wyoming; Augustine Haard, of Massachusetts, to be minister resident and consul general of the United States to Corea, Louis Gotschalk, of California, to be consul-general of the United States at Stuttgart; John F. Winger, of Illinois, to be United States consul at Mannheim; Richard Guenther, of Wisconsin, to be consul-general of the United State at the City of Mexico; Thomas McDermott, of Massachusetts, to be United States consul at St. Thomas, West Indies; George W. Pepper, of Ohio, to be United States consul at Milan; Commander William M. Colger, United States navy, to be chief of the bureau of ordnance in the department with rank of commodore; Lieutenant Commander Joseph E. Craig, to be commander; Lieutenant, Henry D. Mansfied, to be lieutenant-commander; Lieutenants J. T. Smith and Ridgley Hunt, junior grades to be lieutenants.

JOHN MOST.

The Anarchist Prisoner Indulges in Big Talk.

NEW YORK, Jan. 27.—John Most, in speaking of Herr Bedel's charge, cabled from Berlin yesterday, that "Most's paper, Freiser, was the product of secret police and provocateures," said: "He is a liar; there is no truth in it whatever. The German socialists are trying to help themselves politically at the expense of the anarchists. Provocateures exist in America. There are police officials, or Pinkerton men, who incite men to do wrong and then arrest them while they are doing it. I have had experience with them, but they did not catch me. I understand that game; it was in that way that they sent poor Hoeneck, the Chicago anarchist, to prison for twelve years. I will soon get out of jail and then I will show the police and their provocateures what I can do."

DEFENDS PARNELL.

Wm. O'Brien Delivers an Oration at Dublin--Other Foreign News.

DUBLIN, Jan. 27.—Mr. Wm. O'Brien delivered an oration in this city yesterday, in which he made a strong defense of Mr. Parnell in the face of the most recent attacks upon him. He spoke warmly of the continued confidence in the Irish leader, who, he said, was never so much loved by his party and the country as he is now, after the latest stab from his foes.

PARIS, Jan. 27.—M. Peiratis, the French painter, is dead.

BERLIN, Jan. 27.—To-day is the anniversary of Emperor William's birthday. The day is being generally observed. His majesty received the princes, generals, etc. Fully 2,000 officers of the army embraced the occasion to pay their respects.

NEW YORK, Jan. 27.—Chas. R. Flint received this morning a cable from Paris stating that the exchange had fallen to 24⅛ at both Paris and Rio de Janiero. The firm was unable to give any reason for the drop and are awaiting further news. It was entirely an unexpected thing so the firm stated.

LITTLE TICKS.

Telegraph Talk as Our Operator Hears it Over the Wire To-day.

NEW ORLEANS, La., Jan. 27.—Harry Lannon, of New Orleans, was knocked out in the third round in a fight with Joe Tauzee, of St. Louis, near here yesterday. The contest was for a purse of $220, with two ounce gloves, Queensbury rules.

NEW ORLEANS, La., Jan. 27.—Fire was discovered last night in the cargo of cotton on board the ship Paramont, loading for Russia. The extent of the damage is not yet ascertained.

NEW YORK, Jan. 27.—Peter Jackson, the colored pugilist who arrived here yesterday on board the Adriatic, is in splendid condition and expresses the hope that he will very soon meet Sullivan in the ring. He will accept any terms which the California Athletic club may offer.

PORTLAND, Mass., Jan. 26.—A serious fire is reported at the Kittery navy yard. The view here is obstructed by a heavy snow storm and smoke. Assistance has been sent from here.

WASHINGTON, Jan. 27.—Cushman & Thomas' Ideal minstrels, which have been playing a successful week at Kearnen's theatre, went to pieces yesterday. Geo. Cushman, who took hold of the company two months ago, went away Thursday to get a band. He has not been heard from since. Most of the salaries have been paid to a recent date.

DANVILLE, Ills., Jan. 27.—About 2 o'clock yesterday morning the west bound passenger train on the Ohio, Indiana and Western railroad ran into a freight train at Mound City, a few miles of here. The passenger engine and four freight cars were wrecked. No one was seriously injured.

NEW YORK, Jan. 27.—Wm. MacFarland, jr., the youngest son of Wm. N. MacFarland, of the law firm of MacFarland, Boardman & Yale, of this city, was drowned while skating on a pond on Staten Island Saturday evening. His body was recovered yesterday. Near his body was found the body of his St. Bernard dog and there was evidence that he had tried to save his master, but had broken through the ice and was also drowned.

JOLIET, Ill., Jan. 27.—The mills of the Illinois Steel company in this city except the rod mill have been shut down for a month past for the annual repairs and awaiting an adjustment of the question of wages. At a meeting of the amalgamated association on iron and steel workers Saturday night a scale was fixed upon for the ensuing year. It is said the aggregate raise of the scale in all departments will be from 15 to 18 per cent. over the wages of last year, which is understood to be satisfactory all around, and the prospect now is that the mills will resume operations with about 1,500 men February 1st or soon after.

MILWAUKEE, Wis., Jan. 27.—The Sentinel publishes this morning an interview with Belva Lockwood, the celebrated woman's-rights advocate, in which she frankly denounces the course that has been pursued by Victoria Woodhull and Tennie Claflin in England, and rebukes them for immorality.

She states that Mrs. Woodhull once admitted to her that she had lived with Col. Blood for eight years when her own husband was living. Mrs. Lockwood is of the opinion that these two women are too well known to conceal their true character from the English people.

SIOUX CITY, Iowa, Jan. 27.—The newly completed Sioux City & North railroad will start regular freight trains to-day. Passenger service will be put on as soon as the telegraph is completed, which will be about February 15. Connection will be made at Garrettson, S. D., with the Sioux Falls line of the Manitoba, and cars run through to St. Paul. Manitoba sleepers will be run between St. Paul and Sioux City.

BUFFALO, N. Y., Jan. 27.—The Union Bridge company, the largest concern of the kind in the world, is about to abandon its shops in Buffalo and concentrate its plant at Athens, Pa. About 350 workmen here will lose employment and the works at Athens will be increased to employ about 800 men.

DEATH IN SNOW SLIDES!

Houses Buried by Snow in California and the Inmates Killed--Overtaken by Storms.

DOWNIEVILLE, Cal., Jan. 27.—A house at Logansport, three miles from here, was buried by a snow slide during a storm yesterday and two of its inmates killed. Fear prevails at Sierra City of another slide.

Many families have abandoned their homes and have taken refuge in the lower tunnel of the Butte mine. Two houses there are already reported to have been crushed in by slides.

A Chinaman started from Sierre City to his cabin about a mile distant, but lost his way in the deep snow and perished.

TERRIBLE SUFFERING IN DAKOTA.

HURON, S. D., Jan. 27.—There are hundreds of people sitting in the farm houses on these snow-covered plains, going mad from want. A correspondent visited many farmers near Huron and reports that there is a pressing need of relief, as starvation is staring hundreds of poor in the face. One farmer, who expressed the belief that he was much better off than many others, said:

"We have something to eat—hominy and a little pork. It wont last long and we have to be careful of the coal, but the worst is the stock. We have not got a thing to feed the horses and cattle. Can't sell them; can't feed them. Stock is going to die by the thousands unless we get something for them to eat. We won't have horses to plow with in the spring, nor no seed to sow. I tell you it goes against the grain to see dumb creatures suffer.

Another one said "Do you know the only help we have had is from the railroad, the North-Western. They have brought coal to us for $2 a ton, free of freight, and have done it all winter. Even at that price we have to economize coal. I tell you if it had not been for the railway company, thousands of people would have frozen to death last week when the thermometer went down to forty degrees below zero."

J. S. Oliver, superintendent of the Dakota central division of the Chicago & North-Western railway at Huron, said "That is all true that you have heard. People are undoubtedly suffering for necessaries, but this road will see that no one freezes. It is to the interest of the company that the people stay here. They are brave and their present condition is no fault of their own. The facts have not been advertised as extensively as they should have been."

Mr. Oliver, continuing, said "I believe you will find things still worse northwest of here;" he said "Governor Mellett has marked nineteen counties as being in need of relief, and this county is, I think, mild to what some others are."

COMMUNICATION ESTABLISHED.

SAN FRANCISCO, Jan. 27.—Communication was established for a short time last night between Sacramento and the Truckee office on the eastern side of the Sierra mountains. It was learned that the snow at the latter place was sixteen feet deep on the track. The late rains followed by frosts had transformed this into ice which will have to be chopped out or shovelled away by hand. The situation on the road to Oregon remains the same. The waters in the rivers of California are receding slowly.

From Colusa, in the western part of the Sacramento valley, reports come that the farms for twenty-two miles north and south of there are covered with water to a depth of from two to six feet. The losses throughout the state cannot yet be approximately estimated, but it will be very great. On the Southern Pacific system the main lines are now open as far as Sacramento and to points of equal distance in the San Joaquin valley.

ROASTED TO DEATH.

The Fate of a Railroad Engineer and Fireman in Colorado.

DENVER, Jan. 27.—Another wreck on the Pacific near Berthoud, Col., occurred Saturday in which Engineer John French and Fireman John Richmond were roasted to death.

They were pulling a freight train and the storm was so blinding that they did not see that the sand had drifted a foot deep in the cut. The locomotive jumped the track burying the engineer and fireman. A telegraph lineman was found unconscious under one of the cars, but he will recover.

The conductor in attempting to reach the nearest telegraph station had to crawl a part of the way on his hands and knees and hold on to the rails. Even then he could hardly face the tempest of wind that swept over the mountains, threatening to dash him to death. Trains on all roads are delayed for the sand drifted like snow.

THE FIRE DEMON.

A Disastrous Hotel Blaze at Montreal Canada.

MONTREAL, Jan. 27.—Shortly before noon yesterday, fire was discovered in the second flat of the Balmoral hotel, one of the leading houses in this city. The hotel is divided into three sections of fire proof walls. The fire was confined to the eastern section. Dawson, of Three Rivers, Quebec, a guest of the hotel, had a narrow escape from suffocating. There was no panic among the guests. The building is owned by W. W. Ogilies, who is insured for $105,000, and who rented it to the Balmoral Hotel company. They are fully insured.

The ground floor is occupied by M. Tardiss' barber shop, Lowenthal's tailor shop, S. Myers' jewelry store, and N. E. Hamilton & Co.'s dry goods store, all of which are badly damaged by water and smoke. They are all fully insured. The Glenroa building next door to the Balmoral block, is occupied by manufacturers' agents, many of whose premises were damaged by smoke and one or two by water. The damage all told is estimated at $60,000.

DENVER, Col., Jan. 27.—At Crested Butte last night the bank and eleven business houses were burned. Loss, $50,000. Small insurance.

CHILLICOTHE, Mo., Jan. 27.—The Browning house, a large three story hotel, kept by J. T. Blackburn, was partially destroyed by fire yesterday morning. The fire was the work of an incendiary. The building was valued at $110,000 and was insured for half that amount. Landlord Blackburn's loss on the furniture and fixtures is $4,000; insurance, $2,500. R. L. Seavey's hardware stock was damaged by water about $4,000; insured for $3,500. Hirsh & Sherman, grocers, stock ruined by water. Loss, $10,000; insurance, $6,000.

PORTSMOUTH, N. H., Jan. 27.—The largest fire that ever occurred at the Kittery navy yard started about 8 o'clock this morning in the boiler room of the building No. 45, occupied by the construction and repair departments as machine and iron plate shops. The fire quickly extended along the shafting and oily timbers into building No. 45, occupied as a futtock mill, and workmen were obliged to drop their tools and jump through the window to escape.

A general alarm was rung in and four steamers belonging to the navy yard were quickly on hand. Despite the efforts of the department and the marine guard the fire extended into the machine shop, and help was then called for from this city. Steamer Kearsage and a company were immediately sent over the ferry on a steam boat, and with these reinforcements the fire was confined entirely to the two buildings.

The two buildings were built in 1845-46 and constructed in stilt fashion, granite pillars being set upon a heavy foundation and the rest of the building constructed of wood. During the war the buildings were remodled and connected together, making a building 400 feet in length and sixty-five feet in width. The loss is expected to reach $100,000.

THE MEXICAN GOVERNMENT

Taking Action to Protect Its Commercial Privileges.

EAGLE PASS, Texas, Jan. 27.—A dispatch has been received from Piedras Negras station that the Mexican government had called upon the governors of the border states for written opinions as to the advisability of abolishing the zenoa libra, and recommending that the Piedras Negras board of trade appoint a delegate to proceed, in conjunction with delegates from Juarez and Nuevo Leon, to the City of Mexico, for the defense of the commercial privileges which were given them.

So far, however, no decided action has been taken in the matter by the citizens of Piedras Negras, who, in fact, seem to regard the inquiries on the part of the federal government as of little moment on this side of the river. The dispatch is regarded as surely presaging the early abolition of Zenoa Libral or free belt, which will be of immense benefit to the trade of the towns along the American border.

EN ROUTE HOME.

The Remains of the Late Hon. Geo. H. Pendleton Being Brought to This County.

LONDON, Jan. 27.—The United States steamer Enterprise, having on board the remains of the Hon. George H. Pendleton, late United States minister to Germany, sailed from Dortmouth for New York yesterday, but was compelled to put back owing to heaviness of weather.

THE DEATH PENALTY.

An Indianapolis Jury Decree it to Azman, the Murderer of Bertha Elff.

INDIANAPOLIS, Jan. 27.—The jury in the Azman case, after fifty hours of deliberation, returned a verdict last evening, finding the prisoner guilty as charged in the indictment, and fixing the punishment at death. Azman murdered his sweetheart, Bertha Elff, some months ago on account of jealousy.

WASHINGTON.

The Sub-Committee of the House Discussing the World's Fair.

WASHINGTON, Jan. 27.—The sub-committee of the house committee on the world's fair began the work of preparing a bill this morning in accordance with the resolution adopted at the meeting of Saturday.

The New York and Chicago bills were brought up, but no attempt was made to have the St. Louis and Washington bills considered.

Fair progress was made on the new bill, the work consisting, as a member of the committee expressed it, of "clipping and pasting parts of the New York and Chicago bills on the same sheet of paper."

THIRTY PERISH!

The Fate of the Crew of a British Ship.

LONDON, Jan. 27.—The British ship Loch Moidrat, Capt. Andrew, from Pisagua for Hamburg, is ashore at Callantsoog, Holland. Thirty of her crew washed overboard after she struck and all perished.

The British ship, Janet Cowan, Capt. Livingston, before reported having returned to Plymouth in distress, lost a number of sails when off the Isle of Wight last Thursday. Five of her crew were lost. Although the ship was almost dismasted the remainder of the crew succeeded in navigating her to Plymouth.

A YOUNG CROOK.

John Kratchman will go to the State Reform School at Plainfield.

John Kratchman, a boy of twelve years and Frank Coudry, aged ten, were arrested yesterday on warrants sworn out charging them with larceny. They had a preliminary hearing before the mayor this morning, when it developed that the articles stolen were taken by young Kratchman, and proved to be a chair belonging to Baals, the Columbia street second hand dealer, and some jugs, the property of M. F. Kaag, the queensware merchant. The articles were sold at Soliday's second hand store.

The evidence being conclusive against Kratchman he was bound over in the sum of $100 to await the action of the grand jury. Young Coudry was released, but will appear as a witness against his companion.

This is Kratchman's third offense and he will probably go to the state reform school.

Horse Talk.

BUFFALO, Jan. 27.—Last week's Chicago Horseman contained an offer from George Middleton, owner of the Gray Gilding Jack to match Jack against the Bell Hamlin on the following conditions: For a stake of $30,000; the horses are to be entered in the free-for-all race through the grand circuit, including Detroit, and which ever horse makes the best position in that class through the circuit shall take the entire amount.

Mr. C. J. Hamlin's attention was called to the offer this morning. He said, "I have yet to receive a challenge from Mr. Middleton directed to me and over his own signature. When I get that I may be able to talk business. The proposition which Mr. Middleton made is absurd and I shall pay no attention to it."

Justus H. Rathbone.

KNIGHTSTOWN, Ind., Jan. 27.—Perhaps the largest audience that ever gathered in this city was assembled at the M. E. Church yesterday morning to witness the memorial services in honor of the late Justus H. Rathbone, founder of the Knights of Pythias. The services were conducted by the Knights of Pythias lodge of this city. The sermon was delivered by Rev. J. W. Sands, grand chaplain of the state, of Rushville, and was one of the most eloquent and impressive ever heard in this city. The highest tributes were paid to the order, and the founder was eloquently eulogized. The church was handsomely decorated for the occasion.

The Weather.

WASHINGTON, Jan. 28.—For Indiana: Fair; colder; northerly winds.

CALLED FROM EARTH.

Death of Ex-County Auditor F. L. Fuerste--Other Deaths.

Last night, at 8:30 o'clock, at his home, 209 East Wayne street, occurred the death of Mr. Frank L. Fuerste, a well-known citizen, of pneumonia.

Mr. Fuerste was born in Germany and came to this country when a boy. In 1858 he was elected auditor of Allen county, and served as such for four years. He was fifty-five years old. He leaves a wife and four children.

The funeral occurs Wednesday morning, at 9:30, from the Cathedral. The pall bearers are Messrs. A. J. Dittoe, H. C. Graffe, C. F. Muhler, Thomas Meegan, James M. Kane and B. S. O'Connor.

The three-year-old son of Mr. Daniel J. Reilly, 51 West Lewis street, died yesterday of diphteria. The funeral took place this morning.

The six-month-old child of Mr. Simon Phillips died yesterday, at Garrett City. The remains were brought here to-day. The funeral occurs to-morrow from the Cathedral.

Mary Ida Lepper, grand-daughter of Mr. Patrick Ryan, the city weighmaster, died this morning at 1 o'clock at the home of her parents, Mr. and Mrs. Joseph Lepper, No. 32 East Washington street, of bronchitis, aged six months. The funeral occurs at 2 o'clock to-morrow afternoon from the Cathedral.

GOES HIGHER.

J. E. B. Steward, of the Pennsylvania Secures a Deserved Promotion.

Mr. J. E. B. Steward, at present assistant to Master Mechanic G. L. Potter, of the Pennsylvania company at this point, will, upon February 1st, leave for Pittsburg, Pa., where he assumes the position of assistant superintendent of the block signal service of the Pennsylvania lines.

The appointment is in the nature of a promotion and is deserved. Mr. Stewart has many warm friends, who will be thoroughly pleased to know of his good fortune.

BEFORE THE CADI.

Unfortunates in the Police Court This Morning.

Timothy Folley, Jasper Wright, Sophie Wright, Sarah Thresher, Amos Thresher, and Charles Smith, a sextette of chronic disreputables who have been making life more or less a burden to the residents in the block on Calhoun street opposite the Rich hotel for some time past, became unusually obnoxious Saturday evening and were gathered in by the minions of the red-eyed law and landed in the cooler. They were arraigned before Mayor Harding this morning, who, after hearing the history of their misdeeds, concluded that society would be benefitted by the retirement of these worthies from the scene of action for a period, fined and costed them as disorderlies, which amounted in the aggregate to $63. Being unable to produce, the prisoners will languish in jail.

John Kratchman, a youth accused of larceny, was bound over to the grand jury in the sum of $100.

Charles Hite, bar-keeper employed by Zollars & Mertz, the South Calhoun street saloonists, was arrested on a charge of selling liquor on Sunday. A fine and costs, amounting to $14.50, were assessed against him, which amount was paid by his employers and Hite was released.

Frank Haley and Frank Waine, charged with being vagrants with no visible means of support, went to jail.

City Y. M. C. A.

Young men, there is still an opportunity to join the Y. M. C. A. on easy terms. Every young man in the city ought to avail himself of this privilege. Come in; look around; see the institution, and get acquainted.

On Tuesday evening, Jan. 30, there will be given in the city Y. M. C. A. hall an art entertainment, entitled, "Living Pictures by Old and New Masters," arranged by Miss M. E. Tibbals, who is an enthusiast in her calling and deserves the patronage of lovers of art.

General class every evening from 8 to to 9, except Wednesdays; business and professional men's class from 4:30 to 5:30, Mondays, Wednesdays and Fridays; junior class Tuesdays and Thursdays, from 4:15 to 5:15, and also Saturday mornings, from 10 to 11.

Mr. John D. Carpenter, the pleasant manager of the Western Union branch office at the Pennsylvania depot, has resigned, and will take service with the Nickel Plate road as operator at the yard office in Nebraska. Will Pearce, operator at the Jenney Electric Light Company, succeeds him.

MONDAY, JAN. 27, 1890.

IT was a quiet Sunday.

THE winter has lost its grip again.

NELLIE BLY is the champion globe trotter.

THE democracy are in line for victory next fall.

THERE were sixteen deaths in this city last week.

THERE were 648 deaths in Chicago last week.

NEW JERSEY pays her governors $10,000 a year.

THE Australian system of voting is proving popular.

THOUSANDS of men are out of work in Chicago and cannot get it.

THE New Haven Times, published by Will A. Davis, the Columbia City poet, has suspended.

IF Nellie Bly wanted to be mean, she would go down the bay to welcome Miss Bisland back to America.

THE democracy of this county will hold their convention for the nomination of county officers on the 14th of June.

THE natural gas accident at Columbus is a loud warning to thousands of people in Fort Wayne. Too much care in daily use and in the matter of inspection of pipes can not be exercised.

THE school house at White's Indian Manual Labor Institute, near Wabash, where Indian children are being educated at Government expense, burned last Friday, with nearly all its contents. The origin of the fire is a mystery. There was an insurance on the property of $500.

OUR beef and bread stuffs exports last year were $242,998,175, an increase of $42,463,616 over 1888. Upon these products the farmer does not have a cent of protection. He has to sell them at the foreign price. But nothing that he buys—his plows, his harness, his chains, his hats and boots and clothes, his tools, his blankets, his stoves and tinware—nothing of these can he buy as he has to sell, at the foreign price. He has to pay a price enhanced by a tariff which averages 47 per cent.

THE reports of the hygienic condition of school houses of the state now being collected by the State Board of Health, are made out by the teachers of the schools, and knowing this, one would be surprised to note the number of misspelled words and ungrammatical expressions which are found in the documents. In those received within the last two or three days, "verry," "non" "yes sur," "some of these things will soon be did," and "nessary" were observed. In answer to the printed question, "Are any of your pupils nearsighted?" one intelligent teacher wrote in the adjoining blank, "None of them have started yet."

S. L. MOODY, in speaking of the second coming of Christ, says: "Yes, the fifth monarchy is coming, and it may be very soon. Hail, thou Fifth Monarch, who art to rule the world in righteousness, and sway the sceptre 'from the river unto the ends of the earth.' Shortly the cry, 'Christ is come!' will be ringing through the earth. It is only 'a little while.' Cheer up, ye children of God; our King will be back by-and-by! 'And to those who have not as yet given their hearts to Christ, I would say, lose no time! If you want a part and lot in that coming kingdom of the Lord, you had better press into it now whilst the door is open. By-and-by, 'too late! too late!' will be the cry."

WHAT is believed to have been the oldest horse in the state is dead. It belonged to Lieut. Col. W. J. H. Robinson, of the Eleventh Indiana, who died recently. He rode the animal through the war. It was an animal of extraordinary intelligence. It knew all the bugle calls and would execute commands as promptly as the soldiers did. It went through the war, survived Fort Donaldson and Shiloh and a score of epidemics after the war and died Saturday of the Russian influenza. This horse has been more human than his kind and it is not strange that he should die of a malady that has afflicted only men. He was thirty-four years old and was beloved by the family because of his intelligence, and because he had twice saved the life of John R. Robinson, now deceased.

EX-QUEEN ISABELLA of Spain, who was turned out of the kingdom twenty years ago, thinks the outlook for monarchs is discouraging. If a monarch is good-natured and liberal, sedition is encouraged to break out; if he is severe in suppressing sedition his harshness is made a pretext for revolution. Do what he will or turn as he may he is sure to be beaten in the end. The ex-Queen says that her grandson keeps his throne simply because the Spaniards are too chivalrous to send into exile a young widow and a fatherless child.

DEMOCRATS MEET.

The democratic county central committee met Saturday afternoon at the superior court room. The meeting was called to order by Hon. Montgomery Hamilton, the chairman, who delivered a brief address, in which he congratulated the democracy of the county on the work done in the past and urged vigorous and harmonious action in the future. The democracy of Allen county, he said, had always done its duty and it would be true to its record in the state campaign which is to occur this year. The future looked bright and the party of the people would not only score a victory in the state this year but a grand triumph also in the great presidential contest of 1892.

Secretary W. W. Rockhill then read the roll call and the following committeemen answered to their names: Aboit, Cornelius Yant; Adams, Christ Schafer; Cedar Creek, V. H. Mueller; Lafayette, John Biegler; Madison, Wm. Franke; Maumee, R. B. Shirely; Milan, Steve Heath; Perry, E. H. Parker; Pleasant, Wm. Dalman; second precinct, John Dalman; Springfield, Hiram B. Roller; St. Joe, Geo. Geoglein; Washington, Thomas Hunt; First ward, Joe Derheimer; Second ward, Alex Martin; Third ward, W. W. Rockhill; Fourth werd, Christ Weninghoff; Fifth ward, Dan Hutzell and A. J. Moynihan; Sixth ward, Harry France; Eighth ward, C. W. Edsall and John G. Noll; Ninth ward, Chas. Parr and A. K. Irey.

The first business before the meeting was the filling of the vacancies on the committee. Mr. Christian Boseker was chosen from the second precinct of the third ward, vice W. S. O'Rourke, removed from the city. Mr. Samuel Bolyard was appointed committeeman from Jackson township, the vacancy occurring from removal. Mr. Otto Herbst was appointed from the seventh ward, vice John Wessell, jr., deceased.

A new precinct in Adams township having been created a resolution was read, apportioning to it three delegates and a like number to the new tenth ward in the city. After considerable discussion it was decided unanimously to leave the representation as it has been—seventy-three from the city and 112 from the townships.

The Adams township delegates will remain as they have been, and the ten delegates of the old Seventh ward have been divided, five of them going to the new Tenth ward.

Chairman Hamilton was authorized to name the committeemen of the Tenth ward as soon as the county commissioners define its precincts.

The time of holding the next county convention was the next subject considered. Three dates were presented—May 31, June 14 and June 28—and after a discussion, Saturday, June 14, was chosen. The delegates will be chosen the day previous, June 13, from 2 to 4 in the county, and from 4 to 7 in the city.

The committeemen were instructed to hold the primary elections at the same places in the various townships and wards, as near as possible, as they have been held in the past.

The committee authorized Mr. Hamilton to fix a date for electing delegates to the joint representative convention with Huntington county.

The following resolution was unanimously adopted:

Be it Resolved, by the Allen county democratic committee, That the state democratic committee be required to consider the city of Fort Wayne as a suitable place in which to hold the coming state democratic convention. The magnificent democratic majority of Old Allen will be still further increased, and the exertions of her faithful democratic workers redoubled, if the compliment of the state convention should be given to the city of Fort Wayne. The Allen county democratic committee urges upon the state democratic committee the advisability of holding the state convention in that city, and assures the democracy of the state a hearty welcome, a good time, and a majority that will inspire and encourage democrats wherever residing.

A TREASURE owned by Mr. Bernard Quaritch is the MS. prayer-book carried by the first Earl of Shrewsbury at the battle of Chatillon in 1443, in which both he and his son was slain. It was discovered, as is supposed, after the fight by some Bretons, who took it to their province, where it remained until about forty years ago. There is some reason to think it was written during the Earl's captivity in France, and it is probable that it was the work of his chaplain. It contains many English devotional and patriotic rhymes in the style of the Benedictine monk Lydgate, some of whose poetical work it includes. By a fortunate chance, several missing pages, long separated from the main work, have now been recovered.

"CRUSH THE SALOON."

Rev. J. M. Boggs Advocates It as the Remedy to Check the Tide of Intemperance in This Land.

Yesterday was temperance day at the Third Presbyterian church and Rev. J. M. Boggs, the pastor, preached two powerful and eloquent sermons on the subject.

In the morning his theme was a general one, "Temperance," in which he spoke of the terrible ruin that follows in the wake of the drink habit, and urged total abstinence as the remedy.

In the evening his subject was "The Saloon." "Thou Shalt Love Thy Neighbor as Thyself" was the somewhat novel text he announced in beginning, and from it he preached a sermon as able and as interesting as has ever been delivered from a pulpit in this city on the temperance question.

The divine command, "Thou shalt love thy neighbor as thyself," he said, is one which, in this selfish world, we are too apt to forget and let go unobeyed. In the busy whirl of life, where all are seeking for wealth and the ease and comfort which it brings, we are too apt to forget to "love our neighbor," but by no class of persons is the command more flagrantly violated than by the saloonkeeper. The merchant gives you value received for the goods you buy over his counter, but the saloonkeeper gives you that which is not only worthless, but ruinous alike to body and soul.

If there is any virtue in pure liquor, it is not found in the vile stuff which is handed out over his bar. Foreigners coming to this country, who have been beer drinkers, say there is but little pure beer in America. Pure beer is made out of hops, but the concoction you get over American bars is manufactured from aloes. There are two large breweries in this city. I do not know what they use in the manufacture of their beer, but I am told there is no market for hops in Fort Wayne and I draw the conclusion that aloes is used in its manufacture. Your whisky is as far from being pure. A large amount of it is a miserable article made from all sorts of injurious adulterations. A man who has seen the bottom of a whisky barrel in a town in which I formerly lived, told me that he found it filled with cigar and tobacco stubs. This is the cheap and injurious article that drinking men take into their stomachs.

There are 250,000 saloon keepers in this nation and there is spent for intoxicating liquors every year in the United States over $1,000,000,000. There is spent here in Fort Wayne in one year, for the same purpose, more than $1,000,000. This is one tenth of the living expenses of all the people in your city and yet a minority of your citizens spend this vast sum. Is it any wonder that there are homes of poverty and suffering when the drinking men of your city spend this vast sum, for that which is not only worthless but ruinous alike to themselves and their families?

The drink habit brings poverty, it brings woe and suffering, and it brings crime. The saloon-keeper who has carried on his business for ten years cannot help but have the blood of some victim on his skirts. I enter the elegantly furnished home of one of your liquor dealers. I see blood stains all over that costly carpet; I see blood on the furniture; I see blood on the chandilier; I see blood everywhere. Those are the spots made by the wrecked lives of his victims—men whom he has sent to drunkards' graves.

What is the remedy for this giant evil? The eloquent divine spoke in the morning of the temperance work being done by the Women's Christian Temperance Union, Good Templars and other kindred organizations. He alluded to this in the evening and said he was glad to see that the German Lutherans and the Catholics were joining actively in an effort to save the members of their congregations from the growing evil. He was glad to see that the Catholics were advising those of their members who were saloonkeepers to give up the business, and that the Lutherans, all over the country, who were engaged in it were threatened with expulsion from the church unless they quit liquor selling.

These things will check the evil somewhat, but they will not crush it out. The great army of drunkards that is being educated every day will tempt others, for the enormous profit there is in the business, to step into it and the work of soul slaying and ruin will go on.

The remedy is to crush the saloon. Remove the place where the young are educated in vice, and you will have solved the temperance problem. The speaker believed the time was coming when the American people would do this. It might not come in his day, but come it would, sooner or later, and he believed the next half century would witness the death of the American saloon and the people of those days would wonder that such a giant evil had ever been allowed to exist.

"It's only a question of time," and a short time, too, as to when your rheumatism will yield to Hood's Sarsaparilla. Try it.

HE PAID HIS FARE

And He Was Not Going to be Rung up to Pay it Again.

A good one is told on Mr. J. C. M. Baker, the ticket receiver for the Fort Wayne road. He had not been a passenger on a street car in this city since the system of registering fares came into use, until the other evening, when he stepped on a down town belt line and with that nonchalent air that belongs to J. C. M. alone, dropped a nickel in the slot.

An instant later two lady passengers stepped in and deposited their fares and the driver pulled the register three times.

Another passenger.

One more ring.

Two more passenger.

Still two more rings.

J. C. M. who had been casting furtive glances at the driver, now opened the car door and declared that he had paid his fare and did not propose to be rung up to pay it again. The driver explained and poor Baker to revive himself, got out upon the front platform only to be mildly informed by the driver that the rules of the company did not allow passengers in front. Mr. Baker throught he had learned enough about street cars in one night so he got off.

The episode got out and the victim has been good-naturedly handing out cigars ever since.

PRESIDENT CARNOT has accepted a copy of the Breton Bible, the first and only translation from the original tongues existing in this language. The book was presented by the Rev. Dr. Bullinger on behalf of the Trinitarian Bible Society, of London, the publishers, and by Pasteur Lecoat, of Tremee, Brittany, the translator, who were received in audience by special appointment. These gentlemen presented at the same time to M. Carnot a copy of the first and only collection of Breton hymns, by M. Lecoat, set to sixty-six old Breton airs, collected by Dr. Bullinger from the lips of Breton peasants and afterward harmonized.

AN indignant relict makes her protest to the New York *Tribune* against the indignity thrust upon widows by the ungrammatical compiler of obituary notices. When she dies this particular widow insists that she does not want any fool editor to put her down as "Mehitable, widow of the late Jonathan Jones." This lady very properly feels that all the facts can be presented to the public, and at the same time with correct grammatical construction, by saying: "Mehitable, widow of Jonathan Jones."

QUEEN VICTORIA lately gave her consent to the abolition of a number of useless court appointments, including the mastership of the buckhounds, but Lord Salisbury declined to make the sweeping changes involved because he needed the patronage to keep his party friends together in the House of Lords.

THE latest museum freak is a Southern girl who is utterly insensible to pain, and whose skin can be cut and punctured without any annoyance to her. She is the most unfeeling creature on record.

A LADY well known in Boston society having been informed that the poet Whittier, when he received an inspiration, was wont to retire to a certain corner of a certain room and there kneel, while he reduced his thought to words, at once, with her own fair hands, made a handsomely embroidered cushion. This she conveyed herself to Oak Knoll, and formally presented it to Mr. Whittier, although she had not had the slightest previous acquaintance with the poet. The emotion of the later upon receipt of this attention can scarcely be described, but they are more easily imagined than is the spectacle of the good old man lugging a pillow about with him to kneel upon in the event of a bright thought striking him.

Last winter Mr. H. E. Kinkade, collector for the United States Express company, at Des Moines, Iowa, was severely troubled with chilblains. The swelling and intense itching of his feet was a great annoyance to him. He tried several remedies without benefit, but fortunately bought a bottle of Chamberlain's Pain Balm. He says he only applied it three times until his feet were entirely well and free from itching and swelling. For sale by Geo. H. Loesch.

Advice to Mothers.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to take. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle.

TAR-OID
NATURE HAS NO BETTER REMEDY
Than this New Compound of Tar for
Wounds, Burns, Sores, Piles, Salt Rheum, Eczema, and Coughs, Croup, Scrofula, Ulcers, Varicose Veins, Bronchitis, and Consumption.

TAR-OID must not be confounded with the cheap remedies which are prepared on the theory that *Skin Diseases* are caused by *impure blood*, which is not true. They have their cause in a want of *vital action* in the skin. TAR-OID restores this action, hence it cures every form of *Skin Disease*, also sores, burns, etc. It is *soothing* and *wonderfully healing*—*gratifying results follow* in every case. It is harmless and can be used with perfect safety by any one. It is superior to all other remedies. There is positively nothing else like it.
TAR-OID is a sure cure for piles. It never fails. We warrant a cure or refund the money. It gives immediate relief. It is perfectly safe, yet powerful in its action.

PROTECT THEIR LIVES.

The Railroad Employes Petition for Safety Devices in Car Coupling--Gossip from the Busy Centres.

The statistics of railroads operated in America show that in a single year 2,070 brakemen have been killed and 20,148 of the same class have been maimed. This is awful slaughter. And it takes no account of the vast number of persons killed the country over at railroad crossings, to say nothing of the sacrifice of incompetency or carelessness.

The accidents of brakemen occur almost wholly in the coupling of freight cars, upon which the old device of the pin and the simple coupler is still used, though better methods have been pointed out. Railroad managers will not adopt the newer device, making their excuse the need of economy.

The railway employes of the United States met in a delegate convention at Boston recently and petitioned congress to insist that the railroads should use a safety device on their freight-cars, and that, further, they shall be compelled to protect men forced to use the top of the cars by a safety rail, an inexpensive but a most useful arrangement.

The demand of the brakemen is reasonable. It ought to be backed by a general demand that railroad companies shall have greater regard in all respects for the sanctity of human life. The railroad is indispensible, but it ought not be made a car of Juggernaut rolling over poor humanity and endeavoring to escape its responsibility for its torts by cast-iron contracts with employes and by scandalous misuse of the courts.

THE DAY'S NEWS.

A. N. Evans, machinist at the electric light works, has resigned to accept a position at Providence, R. I. He left for that place to-day.

Sam Tailor, the well known operator at the Pittsburg telegraph offices, is receiving congratulations over the arrival of a boy at his home.

L. S. Frost, night watchman at the east Pittsburg yards, has resigned his position to accept a place with the firm of S. F. Bowser & Co.

The engineers are in secret conclave at Buffalo, N. Y., and it is hard to tell what the result of the meeting will be. It is not known publicly what the object of the meeting is, but it is supposed that it is in regard to fixing up the wage scale. Railroad officials are much worked up and think there will probably be a strike on the Vanderbilt system. The engineers have been in conclave for a number of days and they all wear serious faces, but will tell nothing whatever. Officials anxiously await developments.

A meeting of the board of directors of the Pittsburg, Fort Wayne and Chicago Railroad company was held to consider the question of expenditures for the improvement of the property during the current year. President Roberts estimated the requirements for the year at $750,000 or $850,000 and recommended that this amount be expended in betterments during the period named. President Meyer, of Fort Wayne, and the directors present concurred in this; the resolution adopted, calling for the appropriation of $750,000. In accordance with the agreement between the Pittsburg, Fort Wayne and Chicago and the Pennsylvania companies, this amount will be furnished by the Pennsylvania, which will receive from the Fort Wayne company an equal amount of special improvement stock. In the past few years there have been authorized by the Fort Wayne board expenditures amounting to about $2,000,000 more than has actually been appropriated.

Nature in Convulsion

Is terrific. Volcanic eruptions, cyclones, earthquakes are awfully and tremendously picturesque, but scarcely desirable to emulate in action and effect by the administration of remedies which produce convulsion and agony in the abnormal portion of the human frame. Such is the effect of the old fashioned violent purgatives happily falling more and more into disuse, and of which Hostetter's Stomach Bitters is the wholesome, pleasant and far more effective succedaneum. They weakened the intestines—the Bitters invigorates them. They left the bowels inactive, because incapacitated by ensuing feebleness. The Bitters, on the contrary, and because it enables, not forces, them to act—a vast and fortunate difference—p-rpetuates their activity and regularity The liver is beneficially stimulated, as the kidneys also are, by this medicine, which easily conquers, also, malaria, nervousness and rheumatism.

J. M. LOOSE RED CLOVER Co., Detroit:—Two years I was afflicted with a very severe attack of Erysipelas. After two physicians had used their treatment for several weeks and I continued growing blind, and in their diagnosis concluded that there was no earthly help or hope for me. I gave up, having tried all the remedies I knew or heard of. My neighbor, Mr. Miller, came in to see me one day, and said try Loose's Extract of Red Clover, as he had known of its working remarkable cures. I told him I had lost hope, that nothing would do me any good in the world. He insisted, and taking his hat went to the drug store and bought me one bottle and urged me to try it, which I did. Ten days afterward I sent for two more bottles, and it is wonderful how I improved. I continued using it and to-day I am better than I have been in years. No sign of erysipelas has shown itself and I heartily recommend it to suffering humanity as the greatest and best blood purifier in existence. Yours truly,

HENRY MARVIN.

AN OFFICIAL FAMILY.

Its Members Have Held Office for a Hundred Years.

A Harrodsburg (Ky.) correspondent of the Louisville Courier-Journal says: The Allin family of this place, of which our venerable county clerk, Ben Allin, is the head, have a history that for officers and office-holders is without a parallel in the state, and perhaps in the United States.

In September, 1786, at the first court ever held in Mercer county, Thomas Allin, sr., father of Ben C., the subject of this article, held the office of both county and circuit clerk until 1830, a period of forty-four years. He was succeeded by his son, Thomas Allin, jr., a brother of Ben C. Thomas Allin, jr., held the office (both county and circuit) until 1866, a period of thirty-six years, and in 1849 Uncle Ben took one of the offices from him. He was succeeded in turn by Ben C., our present county, clerk who had been circuit clerk from 1849, to 1862. 'Squire Richard Bonsel was then elected to the circuit court clerkship, and held the office until 1864, when he was defeated by Bush W. Allin, a son of Ben C., who is the present circuit court clerk. Ben C. was ousted from the county court's office during the war for a period of four years, during which time the office was held by Dr. C. S. Abell. This period is the only time since this has been a county that one or both offices have not been in the Allin family, and in 1866 Ben C., the present clerk, was re-elected county clerk and has held it uninterruptedly ever since, a period of nearly forty-one years. Barring the period of four years during the war the office of county clerk will have been in this family 100 years next September, and the circuit clerkship in the family for eighty years. Nor is this all.

Uncle Ben had a brother Jack, who was clerk of Huntsville, Mo., who held the office for a number of years, and he in turn was succeeded by two sons, who held the office for a long time, and still another nephew, Thomas H., was clerk of Kirtsville, Mo., for three terms. Phil Allin, a son of Uncle Ben, is circuit clerk of Claiborne, Texas, and has been for three terms of two years each. Another son, William B., of this place, was county attorney for twelve years, and I doubt if there is a man in the county who could beat him now if he offered for the place. One of the most remarkable features of Uncle Ben's office holding is yet to come. At the last primary there were 1,707 votes cast, of which he got 1,703, Uncle Ben refusing to vote for himself. He is the only man who ever ran for office in the county who got the entire vote cast.

Salt Rheum

With its intense itching, dry, hot skin, often broken into painful cracks, and the little watery pimples, often causes indescribable suffering. Hood's Sarsaparilla has wonderful power over this disease. It purifies the blood and expels the humor, and the skin heals without a scar. Send for book containing many statements of cures, to C. I. Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds does, is indeed wonderful. He authorizes all druggists to give those who call for it a sample bottle free, that they may try it before purchasing. The large bottles are 50c and $1. We certainly would advise a trial. It may save you from consumption.

FRUIT HOUSE PRICES FOR 1890.

This year opens favorable for the people, so far as the Sugar Market is concerned. Last season the great sugar trust had their grip on the market and made it ruinous to the purchaser—so much so that Sugars were advanced in 60 days at least 50 per cent. This is now over—the Sugar Trust is broken and Sugars have declined to a point lower than they ever were—the last reduction is 1 cent per lb.

We now offer Best Extra C., 5c. Best Standard A., 6¼c.
Powdered and Crushed, 7c. Granulated and Cut Loaf, 7c.

COFFEE, COFFEE—Rio, Java and Roasted Coffee.

There has been little change in the Coffee Market the last three months. It is too high yet. The clique has control of the market and keeps prices up. We still sell our best Rio at 20c. lb. This we are enabled to de in consequence of our large purchases and selling direct to our customers—in this way saving the profit of the jobber and wholesale merchant.

Best Rio Coffee, 20c. lb. Choice Old Govt. Jave, 27c lb.
Best Roasted Rio, 23c. lb. Sampson Brand in lb. Packages, 24c.
Sersey Coffee in lb. Packages, 24c. Durham Coffee in Packages, 24c.
Levering's Coffee, 24c. lb.

TEAS, TEAS—Young Hyson, Oolong and Japan.

The high price of Coffee has induced a great many to try Tea—and when it is considered that a pound of Tea can be had for the price of a pound of Coffee and that it will go twice as far, it is not to be wondered at that there is a great increase in our Tea Trade. The truth is we sell double the quantity we used to a few years ago. Our motto is selling large quantities at a small profit, for we purchase direct of the Importers and then in selling direct to our customers we save three profits—the speculator, jobber and the wholesale dealer. We sell a good, rich drawing Tea at 20c. lb., and one grade as low as 10c. lb.

Young Hyson Tea, 20c., 30c.; best, 50c. lb.
Oolong Tea, 30c.; best, 50c. lb.
Imperial Tea, 20c; good, 30c; best, 50c lb.
Gunpowder Tea, good, 30c. best, 50c lb.
Japan Uncolored, good, 30c; best, 50c lb.

CANDIES REDUCED 2c. POUND.

This is owing to the decline on Sugar, which has necessarily affected Candy.

Pure Stick Candy, 10c lb. French Mixed Candy, 10c. Chocolate Drops, 15c lb.

In order to inspire his local agents to greater activity in making collections, Manager Bledsoe, of the Singer Manufacturing company, offered cash prizes to the agents sending in the largest cash returns during the month of December. Mr. G. S. Shigley, of Bluffton, received the first prize; A. B. Waterhouse, of Kendallville, second; A. J. Webster, of Columbia City, third.

The Messrs. Jefferson, managers of the "Shadows of a Great City" company, also control and have interests in the tours of the "Dark Secret," "Hands Across the Sea," and America's most prominent comedians, Joseph Jefferson and W. J. Florence. This is a pretty strong showing, as they are all numbered among the strongest and most successful attractions this country presents.

A number of the friends of Mrs. Lappe, of East Madison street, gave that worthy lady a pleasant surprise last evening, the occasion being her birthday. Refreshments were served and a pleasant evening was enjoyed by all. Among those present were: Mr. and Mrs. Mahon, Mr. and Mrs. Stier, Mr. and Mrs. Scharf, Mr. and Mrs. Luli, Mr. and Mrs. Hoffman, Mr. and Mrs. Metler, Mr. and Mrs. Hutchinson, Mrs. Brink, Miss Maggie Krull, Messrs. Richmond people are exorcised over the fact that their supply of natural gas is apparently on the wane. During the late breezy weather the natural gas company was compelled to shut off a number of manufacturing establishments. Fears are entertained that the supply may wink out entirely. Fort Wayne's big jumbo well still continues business at the old stand.

In nearly every first-class hotel in the city the old fashioned seven-day sulphur matches are kept. There are but few other places where they are used. The main reason is that they are more reliable than other brands. But a politician or a man with lots of time on his hands, delights in those sulphur matches. He will hold a cigar butt in one hand and light the match with the other. He can get off a barrel of advice with the proper emphasis while he is waiting for a blaze. When his cigar is lit he puts it in his mouth and then puffs a minute, takes it out again, and in another minute the fire on it is gone. He repeats this performance over and over again. If he used percussion matches, it would take a box to supply him one evening.

On February 1st, John O. Ewan, superintendent of the Indianapolis division of the Big Four railway, between Indianapolis and Galion, Ohio, will retire from the service and will be succeeded by Percy Van Winkel, at present superintendent of the main division of the same line, whose jurisdiction will extend from St. Louis to Galion. Mr. Ewan is a practical railroad man of wide experience, having come up from the ranks. Thirty years ago he entered the service of the old Belfountaine railroad, as the Bee Line was then known, and has successively filled the position of telegraph operator, station agent, train dispatcher, train master, and five years ago, was appointed division superintendent, which position he has since filled. Mr. Ewan has not decided as yet what his future course will be, but his well known reputation as a railroad man will not long allow him to remain idle.

AROUND THE GLOBE.

Miss Nellie Bly Makes a Trip Around the World and Beats All Previous Records.

On the 10th day of November Miss Bly, of the New York World's staff, was told that she was to start on the 14th by the Hamburg steamer, the Augusta Victoria, for a trip around the world and to push on according to an itinerary which had been prepared, and report back at New York on January 27.

She completed her trip in less than the schedule time and arrived at New York last Saturday afternoon at 4:15, and consumed in her journey of circling the earth seventy-two days, six hours and eleven minutes, beating all previous records.

MISS BISLAND'S ILL LUCK.

Miss Bisland, representing the Cosmopolitan magazine, started westward from New York on the same day Miss Bly sailed toward the east, the former leaving by the New York Central railroad at 6 o'clock in the evening, and she, too, then beginning an endeavor to reach New York again by the around-the-world route in seventy-five days.

Miss Bisland struck bad luck the very moment she landed at Brindisi and started through Europe to take a steamer for America. Misinformed by some one about her chances for catching the French steamer at Havre, she determined to catch the swift-sailing Ems at Southampton. This was an unlucky venture, because by it she lost the French boat, only to find that the Ems had been taken off three weeks before. Then she pushed on, hoping to get the Etruria by hurrying across the Irish sea and going to Queenstown. This hope was broken when she got to Queenstown and found that the Etruria had been taken off and the slow-going Bothnia had taken her place. There was nothing to do but take the Bothnia.

Possibly Miss Bisland might have been comforted if even the Bothnia had got away on time, but that boat was delayed several hours at Queenstown Sunday afternoon, which reduced her chances that much. On top of these annoyances and delays comes the news from London that the incoming steamers are meeting with high winds and heavy seas. Miss Bisland is therefore out on the ocean in a boat whose record is ten days for crossing and is likely to be delayed more by storms than her rival was by either tempest, accident or incident by rail.

E. G. Anderson, of the Pittsburg freight offices, is off duty on account of illness in his family.

THE school house at White's Indian Manual Labor Institute, near Wabash, where Indian children are being educated at Government expense, burned last Friday, with nearly all its contents. The origin of the fire is a mystery. There was an insurance on the property of $500.

OUR beef and bread stuffs exports last year were $242,998,175, an increase of $42,463,616 over 1888. Upon these products the farmer does not have a cent of protection. He has to sell them at the foreign price. But nothing that he buys—his plows, his harness, his chains, his hats and boots and clothes, his tools, his blankets, his stoves and tinware—nothing of these can he buy as he has to sell, at the foreign price. He has to pay a price enhanced by a tariff which averages 47 per cent.

THE reports of the hygienic condition of school houses of the state now being collected by the State Board of Health, are made out by the teachers of the schools, and knowing this, one would be surprised to note the number of misspelled words and ungrammatical expressions which are found in the documents. In those received within the last two or three days, "verry," "non" "yes sur," "some of these things will soon be did," and "nessary" were observed. In answer to the printed question, "Are any of your pupils near-sighted?" one intelligent teacher wrote in the adjoining blank, "None of them have started yet."

S. L. MOODY, in speaking of the second coming of Christ, says: "Yes, the fifth monarchy is coming, and it may be very soon. Hail, thou Fifth Monarch, who art to rule the world in righteousness, and sway the sceptre 'from the river unto the ends of the earth.' Shortly the cry, 'Christ is come!' will be ringing through the earth. It is only 'a little while.' Cheer up, ye children of God; our King will be back by-and-by! 'And to those who have not as yet given their hearts to Christ, I would say, lose no time! If you want a part and lot in that coming kingdom of the Lord, you had better press into it now whilst the door is open. By-and-by, 'too late! too late!' will be the cry."

WHAT is believed to have been the oldest horse in the state is dead. It belonged to Lieut. Col. W. J. H. Robinson, of the Eleventh Indiana, who died recently. He rode the animal through the war. It was an animal of extraordinary intelligence. It knew all the bugle calls and would execute commands as promptly as the soldiers did. It went through the war, survived Fort Donaldson and Shiloh and a score of epidemics after the war and died Saturday of the Russian influenza. This horse has been more human than his kind and it is not strange that he should die of a malady that has afflicted only men. He was thirty-four years old and was beloved by the family because of his intelligence, and because he had twice saved the life of John R. Robinson, now deceased.

EX-QUEEN ISABELLA of Spain, who was turned out of the kingdom twenty years ago, thinks the outlook for monarchs is discouraging. If a monarch is good-natured and liberal, sedition is encouraged to break out: if he is severe in suppressing sedition his harshness is made a pretext for revolution. Do what he will or turn as he may he is sure to be beaten in the end. The ex-Queen says that her grandson keeps his throne simply because the Spaniards are too chivalrous to send into exile a young widow and a fatherless child.

DEMOCRATS MEET.

The democratic county central committee met Saturday afternoon at the superior court room. The meeting was called to order by Hon. Montgomery Hamilton, the chairman, who delivered a brief address, in which he congratulated the democracy of the county on the work done in the past and urged vigorous and harmonious action in the future. The democracy of Allen county, he said, had always done its duty and it would be true to its record in the state campaign which is to occur this year. The future looked bright and the party of the people would not only score a victory in the state this year but a grand triumph also in the great presidential contest of 1892.

Secretary W. W. Rockhill then read the roll call and the following committeemen answered to their names: Aboit, Cornelius Yant; Adams, Christ Schafer; Cedar Creek, V. H. Mueller; Lafayette, John Biegler; Madison, Wm. Franke; Maumee, R. B. Shirely; Milan, Steve Heath; Perry, E. H. Parker; Pleasant, Wm. Dalman; second precinct, John Dalman; Springfield, Hiram B. Roller; St. Joe, Geo. Geoglein; Washington, Thomas Hunt; First ward, Joe Derheimer; Second ward, Alex Martin; Third ward, W. W. Rockhill; Fourth werd, Christ Weninghoff; Fifth ward, Dan Hutzell and A. J. Moynihan; Sixth ward, Harry France; Eighth ward, C. W. Edsall and John G. Noll; Ninth ward, Chas. Parr and A. K. Irey.

The first business before the meeting was the filling of the vacancies on the committee. Mr. Christian Boseker was chosen from the second precinct of the third ward, vice W. S. O'Rourke, removed from the city. Mr. Samuel Bolyard was appointed committeeman from Jackson township, the vacancy occurring from removal. Mr. Otto Herbst was appointed from the seventh ward, vice John Wessell, jr., deceased.

A new precinct in Adams township having been created a resolution was read, apportioning to it three delegates and a like number to the new tenth ward in the city. After considerable discussion it was decided unanimously to leave the representation as it has been—seventy-three from the city and 112 from the townships.

The Adams township delegates will remain as they have been, and the ten delegates of the old Seventh ward have been divided, five of them going to the new Tenth ward.

Chairman Hamilton was authorized to name the committeemen of the Tenth ward as soon as the county commissioners define its precincts.

The time of holding the next county convention was the next subject considered. Three dates were presented—May 31, June 14 and June 28—and after a discussion, Saturday, June 14, was chosen. The delegates will be chosen the day previous, June 13, from 2 to 4 in the county, and from 4 to 7 in the city.

The committeemen were instructed to hold the primary elections at the same places in the various townships and wards, as near as possible, as they have been held in the past.

The committee authorized Mr. Hamilton to fix a date for electing delegates to the joint representative convention with Huntington county.

The following resolution was unanimously adopted:

Be it Resolved, by the Allen county democratic committee, That the state democratic committee be required to consider the city of Fort Wayne as a suitable place in which to hold the coming state democratic convention. The magnificent democratic majority of Old Allen will be still further increased, and the exertions of her faithful democratic workers redoubled, if the compliment of the state convention should be given to the city of Fort Wayne. The Allen county democratic committee urges upon the state democratic committee the advisability of holding the state convention in that city, and assures the democracy of the state a hearty welcome, a good time, and a majority that will inspire and encourage democrats wherever residing.

A TREASURE owned by Mr. Bernard Quaritch is the MS. prayer-book carried by the first Earl of Shrewsbury at the battle of Chatillon in 1443, in which both he and his son was slain. It was discovered, as is supposed, after the fight by some Bretons, who took it to their province, where it remained until about forty years ago. There is some reason to think it was written during the Earl's captivity in France, and it is probable that it was the work of his chaplain. It contains many English devotional and patriotic rhymes in the style of the Benedictine monk Lydgate, some of whose poetical work it includes. By a fortunate chance, several missing pages, long separated from the main work, have now been recovered.

"CRUSH THE SALOON."

Rev. J. M. Boggs Advocates It as the Remedy to Check the Tide of Intemperance in This Land.

Yesterday was temperance day at the Third Presbyterian church and Rev. J. M. Boggs, the pastor, preached two powerful and eloquent sermons on the subject.

In the morning his theme was a general one, "Temperance," in which he spoke of the terrible ruin that follows in the wake of the drink habit, and urged total abstinence as the remedy.

In the evening his subject was "The Saloon." "Thou Shalt Love Thy Neighbor as Thyself" was the somewhat novel text he announced in beginning, and from it he preached a sermon as able and as interesting as has ever been delivered from a pulpit in this city on the temperance question.

The divine command, "Thou shalt love thy neighbor as thyself," he said, is one which, in this selfish world, we are too apt to forget and let go unobeyed. In the busy whirl of life, where all are seeking for wealth and the ease and comfort which it brings, we are too apt to forget to "love our neighbor," but by no class of persons is the command more flagrantly violated than by the saloonkeeper. The merchant gives you value received for the goods you buy over his counter, but the saloonkeeper gives you that which is not only worthless, but ruinous alike to body and soul.

If there is any virtue in pure liquor, it is not found in the vile stuff which is handed out over his bar. Foreigners coming to this country, who have been beer drinkers, say there is but little pure beer in America. Pure beer is made out of hops, but the concoction you get over American bars is manufactured from aloes. There are two large breweries in this city. I do not know what they use in the manufacture of their beer, but I am told there is no market for hops in Fort Wayne and I draw the conclusion that aloes is used in its manufacture. Your whisky is as far from being pure. A large amount of it is a miserable article made from all sorts of injurious adulterations. A man who has seen the bottom of a whisky barrel in a town in which I formerly lived, told me that he found it filled with cigar and tobacco stubs. This is the cheap and injurious article that drinking men take into their stomachs.

There are 250,000 saloon keepers in this nation and there is spent for intoxicating liquors every year in the United States over $1,000,000,000. There is spent here in Fort Wayne in one year, for the same purpose, more than $1,000,000. This is one tenth of the living expenses of all the people in your city and yet a minority of your citizens spend this vast sum. Is it any wonder that there are homes of poverty and suffering when the drinking men of your city spend this vast sum, for that which is not only worthless but ruinous alike to themselves and their families?

The drink habit brings poverty, it brings woe and suffering, and it brings crime. The saloon-keeper who has carried on his business for ten years cannot help but have the blood of some victim on his skirts. I enter the elegantly furnished home of one of your liquor dealers. I see blood stains all over that costly carpet; I see blood on the furniture; I see blood on the chandilier; I see blood everywhere. Those are the spots made by the wrecked lives of his victims—men whom he has sent to drunkards' graves.

What is the remedy for this giant evil? The eloquent divine spoke in the morning of the temperance work being done by the Women's Christian Temperance Union, Good Templars and other kindred organizations. He alluded to this in the evening and said he was glad to see that the German Lutherans and the Catholics were joining actively in an effort to save the members of their congregations from the growing evil. He was glad to see that the Catholics were advising those of their members who were saloonkeepers to give up the business, and that the Lutherans, all over the country, who were engaged in it were threatened with expulsion from the church unless they quit liquor selling.

These things will check the evil somewhat, but they will not crush it out. The great army of drunkards that is being educated every day will tempt others, for the enormous profit there is in the business, to step into it and the work of soul slaying and ruin will go on.

The remedy is to crush the saloon. Remove the place where the young are educated in vice, and you will have solved the temperance problem. The speaker believed the time was coming when the American people would do this. It might not come in his day, but come it would, sooner or later, and he believed the next half century would witness the death of the American saloon and the people of those days would wonder that such a giant evil had ever been allowed to exist.

"It's only a question of time," and a short time, too, as to when your rheumatism will yield to Hood's Sarsaparilla. Try it.

HE PAID HIS FARE

And He Was Not Going to be Rung up to Pay it Again.

A good one is told on Mr. J. C. M. Baker, the ticket receiver for the Fort Wayne road. He had not been a passenger on a street car in this city since the system of registering fares came into use, until the other evening, when he stepped on a down town belt line and with that nonchalent air that belongs to J. C. M. alone, dropped a nickel in the slot.

An instant later two lady passengers stepped in and deposited their fares and the driver pulled the register three times.

Another passenger.

One more ring.

Two more passenger.

Still two more rings.

J. C. M. who had been casting furtive glances at the driver, now opened the car door and declared that he had paid his fare and did not propose to be rung up to pay it again. The driver explained and poor Baker to revive himself, got out upon the front platform only to be mildly informed by the driver that the rules of the company did not allow passengers in front. Mr. Baker throught he had learned enough about street cars in one night so he got off.

The episode got out and the victim has been good-naturedly handing out cigars ever since.

PRESIDENT CARNOT has accepted a copy of the Breton Bible, the first and only translation from the original tongues existing in this language. The book was presented by the Rev. Dr. Bullinger on behalf of the Trinitarian Bible Society, of London, the publishers, and by Pasteur Lecoat, of Tremee, Brittany, the translator, who were received in audience by special appointment. These gentlemen presented at the same time to M. Carnot a copy of the first and only collection of Breton hymns, by M. Lecoat, set to sixty-six old Breton airs, collected by Dr. Bullinger from the lips of Breton peasants and afterward harmonized.

AN indignant relict makes her protest to the New York *Tribune* against the indignity thrust upon widows by the ungrammatical compiler of obituary notices. When she dies this particular widow insists that she does not want any fool editor to put her down as "Mehitable, widow of the late Jonathan Jones." This lady very properly feels that all the facts can be presented to the public, and at the same time with correct grammatical construction, by saying: "Mehitable, widow of Jonathan Jones."

QUEEN VICTORIA lately gave her consent to the abolition of a number of useless court appointments, including the mastership of the buckhounds, but Lord Salisbury declined to make the sweeping changes involved because he needed the patronage to keep his party friends together in the House of Lords.

THE latest museum freak is a Southern girl who is utterly insensible to pain, and whose skin can be cut and punctured without any annoyance to her. She is the most unfeeling creature on record.

A LADY well known in Boston society having been informed that the poet Whittier, when he received an inspiration, was wont to retire to a certain corner of a certain room and there kneel, while he reduced his thought to words, at once, with her own fair hands, made a handsomely embroidered cushion. This she conveyed herself to Oak Knoll, and formally presented it to Mr. Whittier, although she had not had the slightest previous acquaintance with the poet. The emotion of the later upon receipt of this attention can scarcely be described, but they are more easily imagined than is the spectacle of the good old man lugging a pillow about with him to kneel upon in the event of a bright thought striking him.

THERE are plenty of champions of women's rights in this country, but very few defenders of women's wrongs. —*Rochester Post-Express.*

"In vino veritas" doesn't always come out right. Some men lie dreadfully when they are drunk.

Last winter Mr. H. E. Kinkade, collector for the United States Express company, at Des Moines, Iowa, was severely troubled with chilblains. The swelling and intense itching of his feet was a great annoyance to him. He tried several remedies without benefit, but fortunately bought a bottle of Chamberlain's Pain Balm. He says he only applied it three times until his feet were entirely well and free from itching and swelling. For sale by Geo. H. Loesch.

Chicago buys, sells and consumes one million prairie chickens every year. Half of them are supplied by Illinois.

Advice to Mothers.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to take. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle.

TAR-OID

NATURE HAS NO BETTER REMEDY
Than this New Compound of Tar for
Wounds, Burns, Coughs, Croup,
Sores, Piles, Scrofula, Ulcers,
Salt Rheum, Varicose Veins,
Eczema, and Bronchitis, and
Consumption.

TAR-OID CO., Sole Props., Chicago, Ill., U. S. A.

TAR-OID must not be confounded with the cheap remedies which are prepared on the theory that *Skin Diseases* are caused by *impure blood*, which is not true. They have their cause in a want of *vital action* in the skin. TAR-OID restores this action, hence it cures every form of *Skin Disease*, also sores, burns, etc. It is soothing and wonderfully healing—gratifying results follow in every case. It is harmless and can be used with perfect safety by any one. It is superior to all other remedies. There is positively nothing else like it.

TAR-OID is a sure cure for piles. It never fails. We warrant a cure or refund the money. It gives immediate relief. It is perfectly safe, yet powerful in its action.

PROTECT THEIR LIVES.

The Railroad Employes Petition for Safety Devices in Car Coupling--Gossip from the Busy Centres.

The statistics of railroads operated in America show that in a single year 2,070 brakemen have been killed and 20,118 of the same class have been maimed. This is awful slaughter. And it takes no account of the vast number of persons killed the country over at railroad crossings, to say nothing of the sacrifice of incompetency or carelessness.

The accidents of brakemen occur almost wholly in the coupling of freight cars, upon which the old device of the pin and the simple coupler is still used, though better methods have been pointed out. Railroad managers will not adopt the newer device, making their excuse the need of economy.

The railway employes of the United States met in a delegate convention at Boston recently and petitioned congress to insist that the railroads should use a safety device on their freight cars, and that, further, they shall be compelled to protect men forced to use the top of the cars by a safety rail, an inexpensive but a most useful arrangement.

The demand of the brakemen is reasonable. It ought to be backed by a general demand that railroad companies shall have greater regard in all respects for the sanctity of human life. The railroad is indispensible, but it ought not be made a car of Juggernaut rolling over poor humanity and endeavoring to escape its responsibility for its torts by cast-iron contracts with employes and by scandalous misuse of the courts.

THE DAY'S NEWS.

S. M. Taylor, operator at the Pittsburg offices, is on the sick list.

M. F. Gay, of the Pennsylvania company, has returned to duty after an illness.

Clark Bowman, of the Olds wagon works, had three of his fingers badly injured in a machine Saturday.

Conductor Riley is filling the place of Conductor Tom Cummings, of the Wabash, who has been ill for the last two weeks.

A. N. Evans, machinist at the electric light works, has resigned to accept a position at Providence, R. I. He left for that place to-day.

Sam Tailor, the well known operator at the Pittsburg telegraph offices, is receiving congratulations over the arrival of a boy at his home.

L. S. Frost, night watchman at the east Pittsburg yards, has resigned his position to accept a place with the firm of S. F. Bowser & Co.

The engineers are in secret conclave at Buffalo, N. Y., and it is hard to tell what the result of the meeting will be. It is not known publicly what the object of the meeting is, but it is supposed that it is in regard to fixing up the wage scale. Railroad officials are much worked up and think there will probably be a strike on the Vanderbilt system. The engineers have been in conclave for a number of days and they all wear serious faces, but will tell nothing whatever. Officials anxiously await developments.

A meeting of the board of directors of the Pittsburg, Fort Wayne and Chicago Railroad company was held to consider the question of expenditures for the improvement of the property during the current year. President Roberts estimated the requirements for the year at $750,000 or $850,000 and recommended that this amount be expended in betterments during the period named. President Meyer, of Fort Wayne, and the directors present concurred in this; the resolution adopted, calling for the appropriation of $750,000. In accordance with the agreement between the Pittsburg, Fort Wayne and Chicago and the Pennsylvania companies, this amount will be furnished by the Pennsylvania, which will receive from the Fort Wayne company an equal amount of special improvement stock. In the past few years there have been authorized by the Fort Wayne board expenditures amounting to about $2,000,000 more than has actually been appropriated.

One daughter, who died in 1857, had been reduced to a skeleton, but the bodies of the wife and other daughter, who had died in 1871 and 1872, were found to be in almost perfect preservation, and the clothing as well.

Charles Steward and Logan Wray escaped from the Newport jail during Thursday night, and have not been captured by the sheriff's pursuing party. This was their sixth attempt to escape. Steward is charged with the murder of Frank Beatty, a Chicago & Eastern Illinois brakeman, and Wray is charged with criminal assault on a widow seventy years of age.

Henry Runyon, a young farmer living near Geneva, is a fugitive from justice. He was arrested last Saturday on the charge of obtaining $48 on a false claim for sheep killed by dogs, from Trustee Herr, of Wabash township, and gave bond in the sum of $300 for his appearance yesterday in this city for trial. Failing to put in an appearance his bond was declared forfeited. Runyon, fearing a term in the penitentiary, fled the country.

Nature in Convulsion

is terrific. Volcanic eruptions, cyclones, earthquakes are awfully and tremendously picturesque, but scarcely desirable to emulate in action and effect by the administration of remedies which produce convulsion and agony in the abnormal portion of the human frame. Such is the effect of the old fashioned violent purgatives happily falling more and more into disuse, and of which Hostetter's Stomach Bitters is the wholesome, pleasant and far more effective succedaneum. They weakened the intestines—the Bitters invigorates them. They left the bowels inactive, because incapacitated by ensuing feebleness. The Bitters, on the contrary, and because it enables, not forces, them to act—a vast and fortunate difference—perpetuates their activity and regularity. The liver is beneficially stimulated, as the kidneys also are, by this medicine, which easily conquers, also malaria, nervousness and rheumatism.

Patti's part of her entertainment in Chicago was $64,000. She regarded the affair as a great success.

"STOP"—Nature Has a Cure.

EATON RAPIDS, Mich.

J. M. LOOSE RED CLOVER Co., Detroit:—Two years I was afflicted with a very severe attack of Erysipelas. After two physicians had used their treatment for several weeks and I continued growing blind, and in their diagnosis concluded that there was no earthly help or hope for me. I gave up, having tried all the remedies I know or heard of. My neighbor, Mr. Miller, came in to see me one day, and said try Loose's Extract of Red Clover, as he had known of its working remarkable cures. I told him I had lost hope, that nothing would do me any good in the world. He insisted, and taking his hat went to the drug store and bought me one bottle and urged me to try it, which I did. Ten days afterward I sent for two more bottles, and it is wonderful how I improved. I continued using it and to-day I am better than I have been in years. No sign of erysipelas has shown itself and I heartily recommend it to suffering humanity as the greatest and best blood purifier in existence. Yours truly,

HENRY MARVIN.

AN OFFICIAL FAMILY.

Its Members Have Held Office for a Hundred Years.

A Harrodsburg (Ky.) correspondent of the Louisville Courier-Journal says: The Allin family of this place, of which our venerable county clerk, Ben Allin, is the head, have a history that for officers and office-holders is without a parallel in the state, and perhaps in the United States.

In September, 1786, at the first court ever held in Mercer county, Thomas Allin, sr., father of Ben C., the subject of this article, held the office of both county and circuit clerk until 1830, a period of forty-four years. He was succeeded by his son, Thomas Allin, jr., a brother of Ben C. Thomas Allin, jr., held the office (both county and circuit) until 1866, a period of thirty-six years, and in 1849 Uncle Ben took one of the offices from him. He was succeeded in turn by Ben C., our present county, clerk who had been circuit clerk from 1849, to 1862. 'Squire Richard Bonsel was then elected to the circuit court clerkship, and held the office until 1864, when he was defeated by Bush W. Allin, a son of Ben C., who is the present circuit court clerk. Ben C. was ousted from the county court's office during the war for a period of four years, during which time the office was held by Dr. C. S. Abell. This period is the only time since this has been a county that one or both offices have not been in the Allin family, and in 1866 Ben C., the present clerk, was re-elected county clerk and has held it uninterruptedly ever since, a period of nearly forty-one years. Barring the period of four years during the war the office of county clerk will have been in this family 100 years next September, and the circuit clerkship in the family for eighty years. Nor is this all.

Uncle Ben had a brother Jack, who was clerk of Huntsville, Mo., who held the office for a number of years, and he in turn was succeeded by two sons, who held the office for a long time, and still another nephew, Thomas H., was clerk of Kirtsville, Mo., for three terms. Phil Allin, a son of Uncle Ben, is circuit clerk of Claiborne, Texas, and has been for three terms of two years each. Another son, William B., of this place, was county attorney for twelve years, and I doubt if there is a man in the county who could beat him now if he offered for the place. One of the most remarkable features of Uncle Ben's office holding is yet to come. At the last primary there were 1,707 votes cast, of which he got 1,703, Uncle Ben refusing to vote for himself. He is the only man who ever ran for office in the county who got the entire vote cast.

FRUIT HOUSE PRICES FOR 1890.

This year opens favorable for the people, so far as the Sugar Market is concerned. Last season the great sugar trust had their grip on the market and made it ruinous to the purchaser—so much so that Sugars were advanced in 60 days at least 50 per cent. This is now over—the Sugar Trust is broken and Sugars have declined to a point lower than they ever were—the last reduction is 1 cent per lb.

The high price of Coffee has induced a great many to try Tea—and when it is considered that a pound of Tea can be had for the price of a pound of Coffee and that it will go twice as far, it is not to be wondered at that there is a great increase in our Tea Trade. The truth is we sell double the quantity we used to a few years ago. Our motto is selling large quantities at a small profit, for we purchase direct of the Importers and then in selling direct to our customers we save three profits—the speculator, jobber and the wholesale dealer. We sell a good, rich drawing Tea at 20c. lb., and one grade as low as 10c. lb.

The commissioners will meet to-morrow to provide for the opening of Winter street, south of Creighton avenue.

Richmond people are exorcised over the fact that their supply of natural gas is apparently on the wane. During the late breezy weather the natural gas company was compelled to shut off a number of manufacturing establishments. Fears are entertained that the supply may wink out entirely. Fort Wayne's big jumbo well still continues business at the old stand.

In nearly every first-class hotel in the city the old fashioned seven-day sulphur matches are kept. There are but few other places where they are used. The main reason is that they are more reliable than other brands. But a politician or a man with lots of time on his hands, delights in those sulphur matches. He will hold a cigar butt in one hand and light the match with the other. He can get off a barrel of advice with the proper emphasis while he is waiting for a blaze. When his cigar is lit he puts it in his mouth and then puffs a minute, takes it out again, and in another minute the fire on it is gone. He repeats this performance over and over again. If he used percussion matches, it would take a box to supply him one evening.

On February 1st, John O. Ewan, superintendent of the Indianapolis division of the Big Four railway, between Indianapolis and Galion, Ohio, will retire from the service and will be succeeded by Percy Van Winkel, at present superintendent of the main division of the same line, whose jurisdiction will extend from St. Louis to Galion. Mr. Ewan is a practical railroad man of wide experience, having come up from the ranks. Thirty years ago he entered the service of the old Belfountaine railroad, as the Bee Line was then known, and has successively filled the position of telegraph operator, station agent, train dispatcher, train master, and five years ago, was appointed division superintendent, which position he has since filled. Mr. Ewan has not decided as yet what his future course will be, but his well known reputation as a railroad man will not long allow him to remain idle.

AROUND THE GLOBE.

Miss Nellie Bly Makes a Trip Around the World and Beats All Previous Records.

On the 10th day of November Miss Bly, of the New York World's staff, was told that she was to start on the 14th by the Hamburg steamer, the Augusta Victoria, for a trip around the world and to push on according to an itinerary which had been prepared, and report back at New York on January 27.

She completed her trip in less than the schedule time and arrived at New York last Saturday afternoon at 1:15, and consumed in her journey of circling the earth seventy-two days, six hours and eleven minutes, beating all previous records.

MISS BISLAND'S ILL LUCK.

Miss Bisland, representing the Cosmopolitan magazine, started westward from New York on the same day Miss Bly sailed toward the east, the former leaving by the New York Central railroad at 6 o'clock in the evening, and she, too, then beginning an endeavor to reach New York again by the around-the-world route in seventy-five days.

Miss Bisland struck bad luck the very moment she landed at Brindisi and started through Europe to take a steamer for America. Misinformed by some one about her chances for catching the French steamer at Havre, she determined to catch the swift-sailing Ems at Southampton. This was an unlucky venture, because by it she lost the French boat, only to find that the Ems had been taken off three weeks before. Then she pushed on, hoping to get the Etruria by hurrying across the Irish sea and going to Queenstown. This hope was broken when she got to Queenstown and found that the Etruria had been taken off and the slow-going Bothnia had taken her place. There was nothing to do but take the Bothnia.

Possibly Miss Bisland might have been comforted if even the Bothnia had got away on time, but that boat was delayed several hours at Queenstown Sunday afternoon, which reduced her chances that much. On top of these annoyances and delays comes the news from London that the incoming steamers are meeting with high winds and heavy seas. Miss Bisland is therefore out on the ocean in a boat whose record is ten days for crossing and is likely to be delayed more by storms than her rival was by either tempest, accident or incident by rail.

E. G. Anderson, of the Pittsburg freight offices, is off duty on account of illness in his family.

Language is hardly strong enough to express my admiration of the merits of Chamberlain's Cough Remedy. It is the best remedy for croup and whooping cough I have ever used. During the past eighteen years I have tried nearly all the prominent cough medicines on the market, but say, and with pleasure too, that Chamberlain's Cough Remedy is the best of all. FOUR KILLED.

A Train on the Monon Route, Near Indianapolis, Ditched and Four Passengers Killed.

INDIANAPOLIS, Jan. 27.—A train on the Monon route was ditched eleven miles north of this city this morning. Four passengers were burned to death and many injured.

LATER.

The train wrecked on the Louisville, New Albany and Chicago road, was the morning express from Chicago due here at 8:30. It bore Abe Ingalls, conductor, and many passengers. Mr. Ingalls was badly, though not fatally hurt. He is with friends near the scene of the wreck and is able to sit up. The tender of the engine jumped the track as the train crossed a long trestle over Wilkinson creek. The engine and baggage car passed over safely. The day coach and sleeper went into the ditch and were ruined.

The killed are: Mrs. Eubands, of Broad Ripple, burned; two children of D. S. Oldham, of Sheridan, burned; unknown man, who died soon after being rescued; Mrs. Lizzie Fitzpatrick, of Indianapolis, missing and supposed to be dead.

Injured: Abe Ingalls, conductor; Engineer Schope, serious; Julius Pearson, of Sheridan, seriously; A. L. Clark, of Westfield, hurt in forehead; ex-President Munger, badly hurt.

SEVENTEEN KILLED.

2 P. M.—A private dispatch from Mt. Carmel states that it believed seventeen lives were lost in the wreck on the Monon there this morning.

LUCKY MEN.

The President Hands Out Some Nice Official Plums.

WASHINGTON, Jan. 27.—The President to-day sent to the senate the following nominations: Samuel Bailey, Jr., of Ohio, to be assistant treasurer of the United States at Cincinnati; John E. Haggort, of North Dakota, to be United States marshal for the district of North Dakota; Elijah Coleman, of Wisconsin, to be United States attorney for the east ern district of Wisconsin; Benjamin F. Fowler, of Wyoming, to be United States attorney for the territory of Wyoming; Augustine Haard, of Massachusetts, to be minister resident and consul general of the United States to Corea, Louis Gotschalk, of California, to be consul-general of the United States at Stuttgart; John P. Winger, of Illinois, to be United States consul at Mannheim; Richard Guenther, of Wisconsin, to be consul-general of the United State at the City of Mexico; Thomas McDermott, of Massachusetts, to be United States consul at St. Thomas, West Indies; George W. Popper, of Ohio, to be United States consul at Milan; Commander William M. Colger, United States navy, to be chief of the bureau of ordnance in the department with rank of commodore; Lieutenant Commander Joseph E. Craig, to be commander; Lieutenant, Henry D. Mansfield, to be lieutenant-commander; Lieutenants J. T. Smith and Ridgley Hunt, junior grades to be lieutenants.

JOHN MOST.

The Anarchist Prisoner Indulges in Big Talk.

NEW YORK, Jan. 27.—John Most, in speaking of Herr Bodel's charge, cabled from Berlin yesterday, that "Most's paper, Freiser, was the product of secret police and provocateurs," said: "He is a liar; there is no truth in it what ever. The German socialists are trying to help themselves politically at the expense of the anarchists. Provocateurs exist in America. There are police officials, or Pinkerton men, who incite men to do wrong and then arrest them while they are doing it. I have had experience with them, but they did not catch me. I understand that game; it was in that way that they sent poor Hoeneck, the Chicago anarchist, to prison for twelve years. I will soon get out of jail and then I will show the police and their provocateurs what I can do."

DEFENDS PARNELL.

Wm. O'Brien Delivers an Oration at Dublin—Other Foreign News.

DUBLIN, Jan. 27.—Mr. Wm. O'Brien delivered an oration in this city yesterday, in which he made a strong defense of Mr. Parnell in the face of the most recent attacks upon him. He spoke warmly of the continued confidence in the Irish leader, who, he said, was never so much loved by his party and the country as he is now, after the latest stab from his foes.

PARIS, Jan. 27.—M. Peiratis, the French painter, is dead.

BERLIN, Jan. 27.—To day is the anniversary of Emperor William's birthday. The day is being generally observed. His majesty received the princes, generals, etc. Fully 2,000 officers of the army embraced the occasion to pay their respects.

NEW YORK, Jan. 27.—Chas. R. Flint received this morning a cable from Paris stating that the exchange had fallen to 24; at both Paris and Rio de Janiero. The firm was unable to give any reason for the drop and are awaiting further news. It was entirely an unexpected thing so the firm stated.

LITTLE TICKS.

Telegraph Talk as Our Operator Hears It Over the Wire To-day.

NEW ORLEANS, La., Jan. 27.—Harry Lannon, of New Orleans, was knocked out in the third round in a fight with Joe Tauzo, of St. Louis, near here yesterday. The contest was for a purse of $220, with two ounce gloves, Queensbury rules.

NEW ORLEANS, La., Jan. 27.—Fire was discovered last night in the cargo of cotton on board the ship Paramont, lending for Russia. The extent of the damage is not yet ascertained.

NEW YORK, Jan. 27.—Peter Jackson, the colored pugilist who arrived here yesterday on board the Adriatic, is in splendid condition and expresses the hope that he will very soon meet Sullivan in the ring. He will accept any terms which the California Athletic club may offer.

PORTLAND, Mass., Jan. 26.—A serious fire is reported at the Kittery navy yard. The view here is obstructed by a heavy snow storm and smoke. Assistance has been sent from here.

WASHINGTON, Jan. 27.—Cushman & Thomas' Ideal minstrels, which have been playing a successful week at Kearnen's theatre, went to pieces yesterday. Geo. Cushman, who took hold of the company two months ago, went away Thursday to get a band. He has not been heard from since. Most of the salaries have been paid to a recent date.

DANVILLE, Ills., Jan. 27.—About 2 o'clock yesterday morning the west bound passenger train on the Ohio, Indiana and Western railroad ran into a freight train at Mound City, a few miles of here. The passenger engine and four freight cars were wrecked. No one was seriously injured.

NEW YORK, Jan. 27.—Wm. MacFarland, jr., the youngest son of Wm. N. MacFarland, of the law firm of MacFarland, Boardman & Yale, of this city, was drowned while skating on a pond on Staten Island Saturday evening. His body was recovered yesterday. Near his body was found the body of his St. Bernard dog and there was evidence that he had tried to save his master, but had broken through the ice and was also drowned.

JOLIET, Ill., Jan. 27.—The mills of the Illinois Steel company in this city except the rod mill have been shut down for a month past for the annual repairs and awaiting an adjustment of the question of wages. At a meeting of the amalgamated association on iron and steel workers Saturday night a scale was fixed upon for the ensuing year. It is said the aggregate raise of the scale in all departments will be from 15 to 18 per cent. over the wages of last year, which is understood to be satisfactory all around, and the prospect now is that the mills will resume operations with about 1,500 men February 1st or soon after.

MILWAUKEE, Wis., Jan. 27.—The Sentinel publishes this morning an interview with Belva Lockwood, the celebrated woman's-rights advocate, in which she frankly denounces the course that has been pursued by Victoria Woodhull and Tennie Claflin in England, and rebukes them for immorality.

She states that Mrs. Woodhull once admitted to her that she had lived with Col. Blood for eight years when her own husband was living. Mrs. Lockwood is of the opinion that these two women are too well known to conceal their true character from the English people.

SIOUX CITY, Iowa, Jan. 27. The newly completed Sioux City & North railroad will start regular freight trains to-day. Passenger service will be put on as soon as the telegraph is completed, which will be about February 15. Connection will be made at Garrettson, S. D., with the Sioux Falls line of the Manitoba, and cars run through to St. Paul. Manitoba sleepers will be run between St. Paul and Sioux City.

BUFFALO, N. Y., Jan. 27.—The Union Bridge company, the largest concern of the kind in the world, is about to abandon its shops in Buffalo and concentrate its plant at Athens, Pa. About 350 workmen here will lose employment and the works at Athens will be increased to employ about 800 men.

DEATH IN SNOW SLIDES!

Houses Buried by Snow in California and the Inmates Killed—Overtaken by Storms.

DOWNIEVILLE, Cal., Jan. 27.—A house at Loganspurt, three miles from here, was buried by a snow slide during a storm yesterday and two of its inmates killed. Fear prevails at Sierra City of another slide.

Many families have abandoned their homes and have taken refuge in the lower tunnel of the Butte mine. Two houses there are already reported to have been crushed in by slides.

A Chinaman started from Sierre City to his cabin about a mile distant, but lost his way in the deep snow and perished.

TERRIBLE SUFFERING IN DAKOTA.

HURON, S. D., Jan. 27.—There are hundreds of people sitting in the farm houses on these snow-covered plains, going and from want. A correspondent visited many farmers near Huron and reports that there is a pressing need of relief, as starvation is staring hundreds of poor in the face. One farmer, who expressed the belief that he was much better off than many others, said:

"We have something to eat, hominy and a little pork. It wont last long and we have to be careful of the coal, but the worst is the stock. We have not got a thing to feed the horses and cattle. Can't sell them; can't feed them. Stock is going to die by the thousands unless we get something for them to eat. We won't have horses to plow with in the spring, nor no seed to sow. I tell you it goes against the grain to see dumb creatures suffer.

Another one said "Do you know the only help we have had is from the railroad, the North-Western. They have brought coal to us for $2 a ton, free of freight, and have done it all winter. Even at that price we have to economize coal. I tell you if it had not been for the railway company, thousands of people would have frozen to death last week when the thermometer went down to forty degrees below zero."

J. S. Oliver, superintendent of the Dakota central division of the Chicago & North-Western railway at Huron, said "That is all true that you have heard. People are undoubtedly suffering for necessaries, but this road will see that no one freezes. It is to the interest of the company that the people stay here. They are brave and their present condition is no fault of their own. The facts have not been advertised as extensively as they should have been."

Mr. Oliver, continuing, said "I believe you will find things still worse northwest of here;" he said "Governor Mellett has marked nineteen counties as being in need of relief, and this county is, I think, mild to what some others are."

COMMUNICATION ESTABLISHED.

SAN FRANCISCO, Jan. 27.—Communication was established for a short time last night between Sacramento and the Truckee office on the eastern side of the Sierra mountains. It was learned that the snow at the latter place was sixteen feet deep on the track. The late rains followed by frosts had transformed this into ice which will have to be chopped out or shovelled away by hand. The situation on the road to Oregon remains the same. The waters in the rivers of California are receding slowly.

From Colusa, in the western part of the Sacramento valley, reports come that the farms for twenty-two miles north and south of there are covered with water to a depth of from two to six feet. The losses throughout the state cannot yet be approximately estimated, but it will be very great. On the Southern Pacific system the main lines are now open as far as Sacramento and to points of equal distance in the San Joaquin valley.

ROASTED TO DEATH.

The Fate of a Railroad Engineer and Fireman in Colorado.

DENVER, Jan. 27.—Another wreck on the Pacific near Berthoud, Col., occurred Saturday in which Engineer John French and Fireman John Richmond were roasted to death.

They were pulling a freight train and the storm was so blinding that they did not see that the sand had drifted a foot deep in the cut. The locomotive jumped the track burying the engineer and fireman. A telegraph lineman was found unconscious under one of the cars, but he will recover.

The conductor in attempting to reach the nearest telegraph station had to crawl a part of the way on his hands and knees and hold on to the rails. Even then he could hardly face the tempest of wind that swept over the mountains, threatening to dash him to death. Trains on all roads are delayed for the sand drifted like snow.

THE FIRE DEMON.

A Disastrous Hotel Blaze at Montreal Canada.

MONTREAL, Jan. 27.—Shortly before noon yesterday, fire was discovered in the second flat of the Balmoral hotel, one of the leading houses in this city. The hotel is divided into three sections of fire proof walls. The fire was confined to the eastern section. Dawson, of Three Rivers, Quebec, a guest of the hotel, had a narrow escape from suffocating. There was no panic among the guests. The building is owned by W. W. Ogilles, who is insured for $105,000, and who rented it to the Balmoral Hotel company. They are fully insured.

The ground floor is occupied by M. Tardiss' barber shop, Lowenthal's tailor shop, S. Myers' jewelry store, and N. E. Hamilton & Co.'s dry goods store, all of which are badly damaged by water and smoke. They are all fully insured. The Glenross building next door to the Balmoral block, is occupied by manufacturers' agents, many of whose premises were damaged by smoke and one or two by water. The damage all told is estimated at $60,000.

DENVER, Col., Jan. 27.—At Crested Butte last night the bank and eleven business houses were burned. Loss, $50,000. Small insurance.

CHILLICOTHE, Mo., Jan. 27.—The Browning house, a large three story hotel, kept by J. T. Blackburn, was partially destroyed by fire yesterday morning. The fire was the work of an incendiary. The building was valued at $110,000 and was insured for half that amount. Landlord Blackburn's loss on the furniture and fixtures is $1,000; insurance, $2,500. R. L. Seavey's hardware stock was damaged by water about $1,000; insured for $3,500. Hirsh & Sherman, grocers, stock ruined by water. Loss, $10,000; insurance, $6,000.

PORTSMOUTH, N. H., Jan. 27.—The largest fire that ever occurred at the Kittery navy yard started about 8 o'clock this morning in the boiler room of the building No. 45, occupied by the construction and repair departments as machine and iron plate shops. The fire quickly extended along the shafting and oily timbers into building No. 45, occupied as a futtock mill, and workmen were obliged to drop their tools and jump through the window to escape.

A general alarm was rung in and four steamers belonging to the navy yard were quickly on hand. Despite the efforts of the department and the marine guard the fire extended into the machine shop, and help was then called for from this city. Steamer Kearsage and a company were immediately sent over the ferry on a steam boat, and with these reinforcements the fire was confined entirely to the two buildings.

The two buildings were built in 1845-46 and constructed in stilt fashion, granite pillars being set upon a heavy foundation and the rest of the building constructed of wood. During the war the buildings were remodled and connected together, making a building 400 feet in length and sixty-five feet in width. The loss is expected to reach $100,000.

THE MEXICAN GOVERNMENT

Taking Action to Protect Its Commercial Privileges.

EAGLE PASS, Texas, Jan. 27.—A dispatch has been received from Piedras Negras station that the Mexican government had called upon the governors of the border states for written opinions as to the advisability of abolishing the zenea libra, and recommending that the Piedras Negras board of trade appoint a delegate to proceed, in conjunction with delegates from Juarez and Nuovo Leon, to the City of Mexico, for the defense of the commercial privileges which were given them.

So far, however, no decided action has been taken in the matter by the citizens of Piedras Negras, who, in fact, seem to regard the inquiries on the part of the federal government as of little moment on this side of the river. The dispatch is regarded as surely presaging the early abolition of Zenea Libral or free belt, which will be of immense benefit to the trade of the towns along the American border.

EX ROFFE HOME.

The Remains of the Late Hon. Geo. H. Pendleton Being Brought to This Country.

LONDON, Jan. 27.—The United States steamer Enterprise, having on board the remains of the Hon. George H. Pendleton, late United States minister to Germany, sailed from Portmouth for New York yesterday, but was compelled to put back owing to heaviness of weather.

THE DEATH PENALTY.

An Indianapolis Jury Decree It to Azman, the Murderer of Bertha Elff.

INDIANAPOLIS, Jan. 27.—The jury in the Azman case, after fifty hours of deliberation, returned a verdict last evening, finding the prisoner guilty as charged in the indictment, and fixing the punishment at death. Azman murdered his sweetheart, Bertha Elff, some months ago on account of jealousy.

WASHINGTON.

The Sub-Committee of the House Discussing the World's Fair.

WASHINGTON, Jan. 27.—The sub committee of the house committee on the world's fair began the work of preparing a bill this morning in accordance with the resolution adopted at the meeting of Saturday.

The New York and Chicago bills were brought up, but no attempt was made to have the St. Louis and Washington bills considered.

Fair progress was made on the new bill, the work consisting, as a member of the committee expressed it, of "clipping and pasting parts of the New York and Chicago bills on the same sheet of paper."

THIRTY PERISH!

The Fate of the Crew of a British Ship.

LONDON, Jan. 27.—The British ship Loch Moidart, Capt. Andrew, from Pisagua for Hamburg, is ashore at Gallantsoog, Holland. Thirty of her crew washed overboard after she struck and all perished.

The British ship, Janet Cowan, Capt. Livingston, before reported having returned to Plymouth in distress, lost a number of sails when off the Isle of Wight last Thursday. Five of her crew were lost. Although the ship was almost dismasted the remainder of the crew succeeded in navigating her to Plymouth.

A YOUNG CROOK.

John Kratchman Will go to the State Reform School at Plainfield.

John Kratchman, a boy of twelve years and Frank Condry, aged ten, were arrested yesterday on warrants sworn out charging them with larceny. They had a preliminary hearing before the mayor this morning, when it developed that the articles stolen were taken by young Kratchman, and proved to be a chair belonging to Banks, the Columbia street second hand dealer, and some jugs, the property of M. P. Kaag, the queensware merchant. The articles were sold at Soliday's second hand store.

The evidence being conclusive against Kratchman he was bound over in the sum of $100 to await the action of the grand jury. Young Condry was released, but will appear as a witness against his companion.

This is Kratchman's third offense and he will probably go to the state reform school.

HORSE TALK.

BUFFALO, Jan. 27.—Last week's Chicago Horseman contained an offer from George Middleton, owner of the Gray Gilding Jack to match Jack against the Bell Hamlin on the following conditions: For a stake of $30,000; the horses are to be entered in the free-for-all race through the grand circuit, including Detroit, and which ever horse makes the best position in that class through the circuit shall take the entire amount.

Mr. C. J. Hamlin's attention was called to the offer this morning. He said, "I have yet to receive a challenge from Mr. Middleton directed to me and over his own signature. When I get that I may be able to talk business. The proposition which Mr. Middleton made is absurd and I shall pay no attention to it."

Justus H. Rathbone.

KNIGHTSTOWN, Ind., Jan. 27.—Perhaps the largest audience that ever gathered in this city was assembled at the M. E. Church yesterday morning to witness the memorial services in honor of the late Justus H. Rathbone, founder of the Knights of Pythias. The services were conducted by the Knights of Pythius lodge of this city. The sermon was delivered by Rev. J. W. Sands, grand chaplain of the state, of Rushville, and was one of the most eloquent and impressive ever heard in this city. The highest tributes were paid to the order, and the founder was eloquently eulogized. The church was handsomely decorated for the occasion.

The Weather.

WASHINGTON, Jan. 28.—For Indiana: Fair; colder; northerly winds.

CALLED FROM EARTH.

Death of Ex-County Auditor F. L. Fuerste—Other Deaths.

Last night, at 8:30 o'clock, at his home, 260 East Wayne street, occurred the death of Mr. Frank L. Fuerste, a well-known citizen, of pneumonia.

Mr. Fuerste was born in Germany and came to this county when a boy. In 1858 he was elected auditor of Allen county, and served as such for four years. He was fifty-five years old. He leaves a wife and four children.

The funeral occurs Wednesday morning, at 9:30, from the Cathedral. The pall bearers are Messrs. A. J. Ditloe, H. C. Grable, C. F. Mahler, Thomas Meegan, James M. Kane and B. S. O'Connor.

The three-year old son of Mr. Daniel J. Reilly, 51 West Lewis street, died yesterday of diphteria. The funeral took place this morning.

The six month-old child of Mr. Simon Phillips died yesterday, at Garrett City. The remains were brought here to-day. The funeral occurs to morrow from the Cathedral.

Mary Ida Lepper, grand-daughter of Mr. Patrick Ryan, the city weighmaster, died this morning at 1 o'clock at the home of her parents, Mr. and Mrs. Joseph Lepper, No. 82 East Washington street, of bronchitis, aged six months. The funeral occurs at 2 o'clock to-morrow afternoon from the Cathedral.

GOES HIGHER.

J. E. B. Steward, of the Pennsylvania Secures a Deserved Promotion.

Mr. J. E. B. Steward, at present assistant to Master Mechanic G. L. Potter, of the Pennsylvania company at this point, will, upon February 1st, leave for Pittsburg, Pa., where he assumes the position of assistant superintendent of the block signal service of the Pennsylvania lines.

The appointment is in the nature of a promotion and is deserved. Mr. Stewart has many warm friends, who will be thoroughly pleased to know of his good fortune.

BEFORE THE CADI.

Unfortunates in the Police Court This Morning.

Timothy Polley, Jasper Wright, Sophia Wright, Sarah Thresher, Amos Thresher, and Charles Smith, a sextette of chronic disreputables who have been making life more or less a burden to the residents in the block on Calhoun street opposite the Rink hotel for some time past, became unusually obnoxious Saturday evening and were gathered in by the minions of the red-eyed law and landed in the cooler. They were arraigned before Mayor Harding this morning, who, after hearing the history of their misdeeds, concluded that society would be benefitted by the retirement of these worthies from the scene of action for a period, fined and costed them as disorderlies, which amounted in the aggregate to $63. Being unable to produce, the prisoners will languish in jail.

John Kratchman, a youth accused of larceny, was bound over to the grand jury in the sum of $100.

Charles Hite, bar-keeper employed by Zollars & Mertz, the South Calhoun street saloonists, was arrested on a charge of selling liquor on Sunday. A fine and costs, amounting to $14.50, were assessed against him, which amount was paid by his employers and Hite was released.

Frank Haley and Frank Watne, charged with being vagrants with no visible means of support, went to jail.

City Y. M. C. A.

Young men, there is still an opportunity to join the Y. M. C. A. on easy terms. Every young man in the city ought to avail himself of this privilege. Come in, look around; see the institution, and get acquainted.

On Tuesday evening, Jan. 29, there will be given in the city Y. M. C. A. hall an art entertainment, entitled, "Living Pictures by Old and New Masters," arranged by Miss M. E. Tibbals, who is an enthusiast in her calling and deserves the patronage of lovers of art.

General class every evening from 8 to 9, except Wednesdays; business and professional men's class from 4:30 to 5:30, Mondays, Wednesdays and Fridays; junior class Tuesdays and Thursdays, from 4:15 to 5:15, and also Saturday mornings, from 10 to 11.

Mr. John D. Carpenter, the present manager of the Western Union branch office at the Pennsylvania depot, has resigned, and will take service with the Nickel Plate road as operator at the yard office in Nobles ha. Will Pearce, operator at the Jenney Electric Light Company, succeeds him.

If Nellie Bly wanted to be mean, she would go down the bay to welcome Miss Bisland back to America.

The democracy of this county will hold their convention for the nomination of county officers on the 14th of June.

The natural gas accident at Columbus is a loud warning to thousands of people in Fort Wayne. Too much care in daily use and in the matter of inspection of pipes can not be exercised.

The school house at White's Indian Manual Labor Institute, near Wabash, where Indian children are being educated at Government expense, burned last Friday, with nearly all its contents. The origin of the fire is a mystery. There was an insurance on the property of $500.

Our beef and bread stuffs exports last year were $242,996,175, an increase of $42,463,616 over 1888. Upon these products the farmer does not have a cent of protection. He has to sell them at the foreign price. But nothing that he buys—his plows, his harness, his chains, his hats and boots and clothes, his tools, his blankets, his stoves and tinware—nothing of these can he buy as he has to sell, at the foreign price. He has to pay a price enhanced by a tariff which averages 47 per cent.

The reports of the hygienic condition of school houses of the state now being collected by the State Board of Health, are made out by the teachers of the schools, and knowing this, one would be surprised to note the number of misspelled words and ungrammatical expressions which are found in the documents. In those received within the last two or three days, "verry," "non" "yes sur," "some of these things will soon be did," and "nessary" were observed. In answer to the printed question, "Are any of your pupils near-sighted?" one intelligent teacher wrote in the adjoining blank, "None of them have started yet."

S. L. Moody, in speaking of the second coming of Christ, says: "Yes, the fifth monarchy is coming, and it may be very soon. Hail, thou Fifth Monarch, who art to rule the world in righteousness, and sway the sceptre 'from the river unto the ends of the earth.' Shortly the cry, 'Christ is come!' will be ringing through the earth. It is only 'a little while.' Cheer up, ye children of God; our King will be back by-and-by! 'And to those who have not as yet given their hearts to Christ, I would say, lose no time! If you want a part and lot in that coming kingdom of the Lord, you had better press into it now whilst the door is open. By-and-by, 'too late! too late!' will be the cry."

What is believed to have been the oldest horse in the state is dead. It belonged to Lieut. Col. W. J. H. Robinson, of the Eleventh Indiana, who died recently. He rode the animal through the war. It was an animal of extraordinary intelligence. It knew all the bugle calls and would execute commands as promptly as the soldiers did. It went through the war, survived Fort Donaldson and Shiloh and a score of epidemics after the war and died Saturday of the Russian influenza. This horse has been more human than his kind and it is not strange that he should die of a malady that has afflicted only men. He was thirty-four years old and was beloved by the family because of his intelligence, and because he had twice saved the life of John R. Robinson, now deceased.

Ex-Queen Isabella of Spain, who was turned out of the kingdom twenty years ago, thinks the outlook for monarchs is discouraging. If a monarch is good-natured and liberal, sedition is encouraged to break out; if he is severe in suppressing sedition his harshness is made a pretext for revolution. Do what he will or turn as he may he is sure to be beaten in the end. The reflection says that her grandson keeps his throne simply because the Spaniards are too chivalrous to send into exile a young widow and a father-less child.

DEMOCRATIC MEET.

The democratic county central committee met Saturday afternoon at the superior court room. The meeting was called to order by Hon. Montgomery Hamilton, the chairman, who delivered a brief address, in which he congratulated the democracy of the county on the work done in the past and urged vigorous and harmonious action in the future. The democracy of Allen county, he said, had always done its duty and it would be true to its record in the state campaign which is to occur this year. The future looked bright and the party of the people would not only score a victory in the state this year but a grand triumph also in the great presidential contest of 1892.

Secretary W. W. Rockhill then read the roll call and the following committeemen answered to their names: Aboil, Cornelius Yant; Adams, Christ Schafer; Cedar Creek, V. H. Mueller; Lafayette, John Biegler; Madison, Wm. Franke; Monroe, R. B. Shirely; Milan, Steve Heath; Perry, L. H. Parker; Pleasant, Wm. Dalman; second precinct, John Dalman; Springfield, Hiram B. Roller; St. Joe, Geo. Geogleiu; Washington, Thomas Hunt; First ward, Joe Derheimer; Second ward, Alex Martin; Third ward, W. W. Rockhill; Fourth ward, Christ Weninghoff; Fifth ward, Dan Hutzell and A. J. Moynihan; Sixth ward, Harry France; Eighth ward, C. W. Edsall and John G. Noll; Ninth ward, Chas. Parr and A. K. Ivey.

The first business before the meeting was the filling of the vacancies on the committee. Mr. Christian Boecker was chosen from the second precinct of the third ward, vice W. S. O'Rourke, removed from the city. Mr. Samuel Bolyard was appointed committeeman from Jackson township, the vacancy occurring from removal. Mr. Otto Herbst was appointed from the seventh ward, vice John Wessell, jr., deceased.

A new precinct in Adams township having been created a resolution was read, apportioning to it three delegates and a like number to the new tenth ward in the city. After considerable discussion it was decided unanimously to leave the representation as it has been—seventy-three from the city and 112 from the townships.

The Adams township delegates will remain as they have been, and the ten delegates of the old Seventh ward have been divided, five of them going to the new Tenth ward.

Chairman Hamilton was authorized to name the committeemen of the Tenth ward as soon as the county commissioners define its precincts.

The time of holding the next county convention was the next subject considered. Three dates were presented—May 31, June 14 and June 28—and after a discussion, Saturday, June 14, was chosen. The delegates will be chosen the day previous, June 13, from 2 to 4 in the county, and from 4 to 7 in the city.

The committeemen were instructed to hold the primary elections at the same places in the various townships and wards, as near as possible, as they have been held in the past.

The committee authorized Mr. Hamilton to fix a date for electing delegates to the joint representative convention with Huntington county.

The following resolution was unanimously adopted:

Be it Resolved, by the Allen county democratic committee, That the state democratic committee be required to consider the city of Fort Wayne as a suitable place in which to hold the coming state democratic convention. The magnificent democratic majority of Old Allen will be still further increased, and the exertions of her faithful democratic workers redoubled, if the compliment of the state convention should be given to the city of Fort Wayne. The Allen county democratic committee urges upon the state democratic committee the advisability of holding the state convention in that city, and assures the democracy of the state a hearty welcome, a good time, and a majority that will inspire and encourage democrats wherever residing.

A treasure owned by Mr. Bernard Quaritch is the MS. prayer-book carried by the first Earl of Shrewsbury at the battle of Chatillon in 1443, in which both he and his son was slain. It was discovered, as is supposed, after the fight by some Bretons, who took it to their province, where it remained until about forty years ago. There is some reason to think it was written during the Earl's captivity in France, and it is probable that it was the work of his chaplain. It contains many English devotional and patriotic rhymes in the style of the Benedictine monk Lydgate, some of whose poetical work it includes. By a fortunate chance, several missing pages, long separated from the main work, have now been recovered.

"CRUSH THE SALOON."

Rev. J. M. Boggs Advocates It as the Remedy to Check the Tide of Intemperance in This Land.

Yesterday was temperance day at the Third Presbyterian church and Rev. J. M. Boggs, the pastor, preached two powerful and eloquent sermons on the subject.

In the morning his theme was a general one, "Temperance," in which he spoke of the terrible ruin that follows in the wake of the drink habit, and urged total abstinence as the remedy.

In the evening his subject was "The Saloon." "Thou Shalt Love Thy Neighbor as Thyself" was the somewhat novel text he announced in beginning, and from it he preached a sermon as able and as interesting as has ever been delivered from a pulpit in this city on the temperance question.

The divine command, "Thou shalt love thy neighbor as thyself," he said, is one which, in this selfish world, we are too apt to forget and let go unobeyed. In the busy whirl of life, where all are seeking for wealth and the ease and comfort which it brings, we are too apt to forget to "love our neighbor," but by no class of persons is the command more flagrantly violated than by the saloonkeeper. The merchant gives you value received for the goods you buy over his counter, but the saloonkeeper gives you that which is not only worthless, but ruinous alike to body and soul.

If there is any virtue in pure liquor, it is not found in the vile stuff which is handed out over his bar. Foreigners coming to this country, who have been beer drinkers, say there is but little pure beer in America. Pure beer is made out of hops, but the concoction you get over American bars is manufactured from aloes. There are two large breweries in this city. I do not know what they use in the manufacture of their beer, but I am told there is no market for hops in Fort Wayne and I draw the conclusion that aloes is used in its manufacture. Your whisky is as far from being pure. A large amount of it is a miserable article made from all sorts of injurious adulterations. A man who has seen the bottom of a whisky barrel in a town in which I formerly lived, told me that he found it filled with cigar and tobacco stubs. This is the cheap and injurious article that drinking men take into their stomachs.

There are 250,000 saloon keepers in this nation and there is spent for intoxicating liquors every year in the United States over $1,000,000,000. There is spent here in Fort Wayne in one year, for the same purpose, more than $1,000,000. This is one tenth of the living expenses of all the people in your city and yet a minority of your citizens spend this vast sum. Is it any wonder that there are homes of poverty and suffering when the drinking men of your city spend this vast sum, for that which is not only worthless but ruinous alike to themselves and their families?

The drink habit brings poverty, it brings woe and suffering, and it brings crime. The saloon-keeper who has carried on his business for ten years cannot help but have the blood of some victim on his skirts. I enter the elegantly furnished home of one of your liquor dealers. I see blood stains all over that costly carpet; I see blood on the furniture; I see blood on the chandelier; I see blood everywhere. Those are the spots made by the wrecked lives of his victims—men whom he has sent to drunkards' graves.

What is the remedy for this giant evil? The eloquent divine spoke in the morning of the temperance work being done by the Women's Christian Temperance Union, Good Templars and other kindred organizations. He alluded to this in the evening and said he was glad to see that the German Lutherans and the Catholics were joining actively in an effort to save the members of their congregations from the growing evil. He was glad to see that the Catholics were advising those of their members who were saloonkeepers to give up the business, and that the Lutherans, all over the country, who were engaged in it were threatened with expulsion from the church unless they quit liquor selling.

These things will check the evil somewhat, but they will not crush it out. The great army of drunkards that is being educated every day will tempt others, for the enormous profit there is in the business, to step into it and the work of soul slaying and ruin will go on.

The remedy is to crush the saloon. Remove the place where the young are educated in vice, and you will have solved the temperance problem. The speaker believed the time was coming when the American people would do this. It might not come in his day, but come it would, sooner or later, and he believed the next half century would witness the death of the American saloon and the people of those days would wonder that such a giant evil had ever been allowed to exist.

"It's only a question of time," and a short time, too, as to when your rheumatism will yield to Hood's Sarsaparilla. Try it.

HE PAID HIS FARE

And He Was Not Going to be Rung up to Pay It Again.

A good one is told on Mr. J. C. M. Baker, the ticket receiver for the Fort Wayne road. He had not been a passenger on a street car in this city since the system of registering fares came into use, until the other evening, when he stepped on a down town belt line and with that nonchalant air that belongs to J. C. M. alone, dropped a nickel in the slot.

An instant later two lady passengers stepped in and deposited their fares and the driver pulled the register three times.

Another passenger.

One more ring.

Two more passenger.

Still two more rings.

J. C. M. who had been casting furtive glances at the driver, now opened the car door and declared that he had paid his fare and did not propose to be rung up to pay it again. The driver explained and poor Baker to revive himself, got out upon the front platform only to be mildly informed by the driver that the rules of the company did not allow passengers in front. Mr. Baker thought he had learned enough about street cars in one night so he got off.

The episode got out and the victim has been good-naturedly handing out cigars ever since.

President Carnot has accepted a copy of the Breton Bible, the first and only translation from the original tongues existing in this language. The book was presented by the Rev. Dr. Bullinger on behalf of the Trinitarian Bible Society, of London, the publishers, and by Pasteur Locoat, of Tremeu, Brittany, the translator, who were received in audience by special appointment. These gentlemen presented at the same time to M. Carnot a copy of the first and only collection of Breton hymns, by M. Locoat, set to sixty-six old Breton airs, collected by Dr. Bullinger from the lips of Breton peasants and afterward harmonized.

An indignant relict makes her protest to the New York *Tribune* against the indignity thrust upon widows by the ungrammatical compiler of obituary notices. When she dies this particular widow insists that she does not want any fool editor to put her down as "Mehitable, widow of the late Jonathan Jones." This lady very properly feels that all the facts can be presented to the public, and at the same time with correct grammatical construction, by saying: "Mehitable, widow of Jonathan Jones."

Queen Victoria lately gave her consent to the abolition of a number of useless court appointments, including the mastership of the buckhounds, but Lord Salisbury declined to make the sweeping changes involved because he needed the patronage to keep his party friends together in the House of Lords.

The latest museum freak is a Southern girl who is utterly insensible to pain, and whose skin can be cut and punctured without any annoyance to her. She is the most unfeeling creature on record.

A lady well known in Boston society having been informed that the poet Whittier, when he received an inspiration, was wont to retire to a certain corner of a certain room and there kneel, while he reduced his thought to words, at once, with her own fair hands, made a handsomely embroidered cushion. This she conveyed herself to Oak Knoll, and formally presented it to Mr. Whittier, although she had not had the slightest previous acquaintance with the poet. The emotion of the later upon receipt of this attention can scarcely be described, but they are more easily imagined than is the spectacle of the good old man hugging a pillow about with him to kneel upon in the event of a bright thought striking him.

Last winter Mr. H. E. Kinkade, collector for the United States Express company, at Des Moines, Iowa, was severely troubled with chilblains. He says he only applied it three times until his feet were entirely well and free from itching and swelling. For sale by Geo. H. Loesch.

Advice to Mothers.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to take. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle.

PROTECT THEIR LIVES.

The Railroad Employes Petition for Safety Devices to Car Coupling--Gossip from the Busy Centers.

The statistics of railroads operated in America show that in a single year 2,070 brakemen have been killed and 20,148 of the same class have been maimed. This is awful slaughter. And it takes no account of the vast number of persons killed the country over at railroad crossings, to say nothing of the sacrifice of incompetency or carelessness.

The accidents of brakemen occur almost wholly in the coupling of freight cars, upon which the old device of the pin and the simple coupler is still used, though better methods have been pointed out. Railroad managers will not adopt the newer device, making their excuse the need of economy.

The railway employes of the United States met in a delegate convention at Boston recently and petitioned congress to insist that the railroads should use a safety device on their freight cars, and that, further, they shall be compelled to protect men forced to use the top of the cars by a safety rail, an inexpensive but a most useful arrangement.

The demand of the brakemen is reasonable. It ought to be backed by a general demand that railroad companies shall have greater regard in all respects for the sanctity of human life. The railroad is indispensible, but it ought not be made a car of Juggernaut rolling over poor humanity and endeavoring to escape its responsibility for its torts by cast-iron contracts with employes and by scandalous misuse of the courts.

L. S. Frost, night watchman at the east Pittsburg yards, has resigned his position to accept a place with the firm of S. F. Bowser & Co.

The engineers are in secret conclave at Buffalo, N. Y., and it is hard to tell what the result of the meeting will be. It is not known publicly what the object of the meeting is, but it is supposed that it is in regard to fixing up the wage scale. Railroad officials are much worked up and think there will probably be a strike on the Vanderbilt system. The engineers have been in conclave for a number of days and they all wear serious faces, but will tell nothing whatever. Officials anxiously await developments.

A meeting of the board of directors of the Pittsburg, Fort Wayne and Chicago Railroad company was held to consider the question of expenditures for the improvement of the property during the current year. President Roberts estimated the requirements for the year at $750,000 or $850,000 and recommended that this amount be expended in betterments during the period named. President Meyer, of Fort Wayne, and the directors present concurred in this; the resolution adopted, calling for the appropriation of $750,000. In accordance with the agreement between the Pittsburg, Fort Wayne and Chicago and the Pennsylvania companies, this amount will be furnished by the Pennsylvania, which will receive from the Fort Wayne company an equal amount of special improvement stock. In the past few years there have been authorized by the Fort Wayne board expenditures amounting to about $2,000,000 more than has actually been appropriated.

Nature in Convulsion

is terrible. Volcanic eruptions, cyclones, earthquakes are awfully and tremendously picturesque, but scarcely desirable to emulate in action and effect by the administration of remedies which produce convulsion and agony in the abnormal person of the human frame. Such is the effect of the old fashioned violent purgatives, happily falling more and more into disuse, and of which Hostetter's Stomach Bitters is the wholesome, pleasant and far more effective successaneum. They weakened the intestines—the blotors instigonites them. They left the bowels inactive, because incapacitated by causing feebleness. The Bitters on the contrary, and because it enables, not forces, them to act—a vast and fortunate difference—it reinstates and restores the liver to healthful activity, and peculiarly stimulates, as the kidneys also are, by this medicine, which easily conquers, also, malaria, nervousness and rheumatism.

"STOP"—Nature Has a Cure.

EATON RAPIDS, Mich.

J. M. LOOSE RED CLOVER Co., Detroit:—Two years I was afflicted with a very severe attack of Erysipelas. After two physicians had used their treatment for several weeks and I continued growing blind, and in their diagnosis concluded that there was no earthly help or hope for me. I gave up, having tried all the remedies I knew or heard of. My neighbor, Mr. Miller, came in to see me one day, and said try Loose's Extract of Red Clover, as he had known of its working remarkable cures. I told him I had lost hope, that nothing would do me any good in the world. He insisted, and taking his hat went to the drug store and bought me one bottle and urged me to try it, which I did. Ten days afterward I sent for two more bottles, and it is wonderful how I improved. I continued using it and to-day I am better than I have been in years. No sign of erysipelas has shown itself and I heartily recommend it to suffering humanity as the greatest and best blood purifier in existence. Yours truly,

HENRY MARVIN.

AN OFFICIAL FAMILY.

Its Members Have Held Office for a Hundred Years.

A Harrodsburg (Ky.) correspondent of the Louisville Courier-Journal says: The Allin family of this place, of which our venerable county clerk, Ben Allin, is the head, have a history that for officers and office-holders is without a parallel in this state, and perhaps in the United States.

In September, 1786, at the first court ever held in Mercer county, Thomas Allin, sr., father of Ben C., the subject of this article, held the office of both county and circuit clerk until 1830, a period of forty-four years. He was succeeded by his son, Thomas Allin, jr., a brother of Ben C. Thomas Allin, jr., held the office (both county and circuit) until 1866, a period of thirty six years, and in 1849 Uncle Ben took one of the offices from him. He was succeeded in turn by Ben C., our present county, clerk who had been circuit clerk from 1849, to 1862. Squire Richard Bousel was then elected to the circuit court clerkship, and held the office until 1864, when he was defeated by Bush W. Allin, a son of Ben C., who is the present circuit court clerk. Ben C. was ousted from the county court's office during the war for a period of four years, during which time the office was held by Dr. C. S. Abell. This period is the only time since this has been a county that one or both offices have not been in the Allin family, and in 1866 Ben C., the present clerk, was re-elected county clerk and has held it uninterruptedly ever since, a period of nearly forty-one years. Barring the period of four years during the war the office of county clerk will have been in this family 100 years next September, and the circuit clerkship in the family for eighty years. Nor is this all.

Uncle Ben had a brother Jack, who was clerk of Huntsville, Mo., who held the office for a number of years, and he in turn was succeeded by two sons, who held the office for a long time, and still another nephew, Thomas H., was clerk of Kirksville, Mo., for three terms. Phil Allin, a son of Uncle Ben, is circuit clerk of Claiborne, Texas, and has been for three terms of two years each. Another son, William B., of this place, was county attorney for twelve years, and I doubt if there is a man in the county who could beat him now if he offered for the place. One of the most remarkable features of Uncle Ben's office holding is yet to come. At the last primary there were 1,707 votes cast, of which he got 1,703, Uncle Ben refusing to vote for himself. He is the only man who ever ran for office in the county who got the entire vote cast.

Salt Rheum

With its intense itching, dry, hot skin, often broken into painful cracks, and the little watery pimples, often causes indescribable suffering. Hood's Sarsaparilla has wonderful power over this disease. It purifies the blood and expels the humor, and the skin heals without a scar. Send for book containing many statements of cures, to C. I. FRUIT HOUSE PRICES FOR 1890.

This year opens favorable for the people, so far as the Sugar Market is concerned. Last season the great sugar trust had their grip on the market and made it ruinous to the purchaser—so much so that Sugars were advanced in 60 days at least 50 per cent. This is now over—the Sugar Trust is broken and Sugars have declined to a point lower than they ever were—the last reduction is 1 cent per lb. We now offer Best Extra C., 5c. Best Standard A., 6½c.

Powdered and Crushed, 7c. Granulated and Cut Loaf, 7c.

COFFEE, COFFEE—Rio, Java and Roasted Coffee.

There has been little change in the Coffee Market the last three months. It is too high yet. The clique has control of the market and keeps prices up. We still sell our best Rio at 20c. lb. This we are enabled to do in consequence of our large purchases and selling direct to our customers—in this way saving the profit of the jobber and wholesale merchant.

Best Rio Coffee, 20c. lb. Choice Old Govt. Java, 27c lb.

Best Roasted Rio, 23c. lb. Sampson Brand in lb. Packages, 24c.

Sersey Coffee in lb. Packages, 24c. Durham Coffee in Packages, 24c.

Levering's Coffee, 24c. lb.

TEAS, TEAS—Young Hyson, Oolong and Japan.

The high price of Coffee has induced a great many to try Tea—and when it is considered that a pound of Tea can be had for the price of a pound of Coffee and that it will go twice as far, it is not to be wondered at that there is a great increase in our Tea Trade. The truth is we sell double the quantity we used to a few years ago. Our motto is selling large quantities at a small profit, for we purchase direct of the Importers and then in selling direct to our customers we save three profits—the speculator, jobber and the wholesale dealer. We sell a good, rich drawing Tea at 20c. lb., and one grade as low as 10c. lb.

Young Hyson Tea, 20c., 30c.; best, 50c. lb.

Oolong Tea, 30c.; best, 50c. lb.

Imperial Tea, 20c; good, 30c; best, 50c lb.

Gunpowder Tea, good, 30c. best, 50c lb.

Japan Uncolored, good, 30c; best, 50c lb.

CANDIES REDUCED 2c. POUND.

Richmond people are exorcised over the fact that their supply of natural gas is apparently on the wane. During the late breezy weather the natural gas company was compelled to shut off a number of manufacturing establishments. Fears are entertained that the supply may wink out entirely. Fort Wayne's big jumbo well still continues business at the old stand.

In nearly every first-class hotel in the city the old fashioned seven-day sulphur matches are kept. There are but few other places where they are used. The main reason is that they are more reliable than other brands. But a politician or a man with lots of time on his hands, delights in those sulphur matches. He will hold a cigar butt in one hand and light the match with the other. He can get off a barrel of advice with the proper emphasis while he is waiting for a blaze. When his cigar is lit he puts it in his mouth and then puffs a minute, takes it out again, and in another minute the fire on it is gone. He repeats this performance over and over again. If he used percussion matches, it would take a box to supply him one evening.

On February 1st, John O. Ewan, superintendent of the Indianapolis division of the Big Four railway, between Indianapolis and Galion, Ohio, will retire from the service and will be succeeded by Percy Van Winkel, at present superintendent of the main division of the same line, whose jurisdiction will extend from St. Louis to Galion. Mr. Ewan is a practical railroad man of wide experience, having come up from the ranks. Thirty years ago he entered the service of the old Bellfountaine railroad, as the Bee Line was then known, and has successively filled the position of telegraph operator, station agent, train dispatcher, train master, and five years ago, was appointed division superintendent, which position he has since filled. Mr. Ewan has not decided as yet what his future course will be, but his well known reputation as a railroad man will not long allow him to remain idle.

AROUND THE GLOBE.

Miss Nellie Bly Makes a Trip Around the World and Beats All Previous Records.

On the 10th day of November Miss Bly, of the New York World's staff, was told that she was to start on the 14th by the Hamburg steamer, the Augusta Victoria, for a trip around the world and to push on according to an itinerary which had been prepared, and report back at New York on January 27.

She completed her trip in less than the schedule time and arrived at New York last Saturday afternoon at 4:15, and consumed in her journey of circling the earth seventy-two days, six hours and eleven minutes, beating all previous records.

MISS BISLAND'S BAD LUCK.

Miss Bisland, representing the Cosmopolitan magazine, started westward from New York on the same day Miss Bly sailed toward the east, the former leaving by the New York Central railroad at 6 o'clock in the evening, and she, too, then beginning an endeavor to reach New York again by the around-the-world route in seventy-five days.

Miss Bisland struck bad luck the very moment she landed at Brindisi and started through Europe to take a steamer for America. Misinformed by some one about her chances for catching the French steamer at Havre, she determined to catch the swift-sailing Ems at Southampton. This was an unlucky venture, because by it she lost the French boat, only to find that the Ems had been taken off three weeks before. Then she pushed on, hoping to get the Etruria by hurrying across the Irish sea and going to Queenstown. This hope was broken when she got to Queenstown and found that the Etruria had been taken off and the slow-going Bothnia had taken her place. There was nothing to do but take the Bothnia.

Possibly Miss Bisland might have been comforted if even the Bothnia had got away on time, but that boat was delayed several hours at Queenstown Sunday afternoon, which reduced her chances that much. On top of these annoyances and delays comes the news from London that the incoming steamers are meeting with high winds and heavy seas. Miss Bisland is therefore out on the ocean in a boat whose record is ten days for crossing and is likely to be delayed more by storms than her rival was by either tempest, accident or incident by rail.

E. G. Anderson, of the Pittsburg freight offices, is off duty on account of illness in his family.

Language is hardly strong enough to express my admiration of the merits of Chamberlain's Cough Remedy. It is the best remedy for croup and whooping cough I have ever used. During the past eighteen years I have tried nearly all the prominent cough medicines on the market, but say, and with pleasure too, that Chamberlain's Cough Remedy is the best of all.
